MEXICANIZING THE GOVERNMENT.

Congressman Longworth, son-in-law of President Roosevelt, has been entreating voters to cast their ballots for Taft, assuring them that the Ohioan's election meant eight years of Taft and then eight years more of Roosevelt.

This is an astonishing statement to come from such a source, and reveals plans that account for many strange political proceedings. Taft is to be Teddy's regent, to hold the throne for his master, who will again come into his own.

It is easy to understand now why the president should force the nomination of his favorite and has now dropped all reserve and dignity supposed to clothe the chief executive of a nation to plunge into the undignified realm of partisan politics and even to take the stump to secure votes for his proxy.

Is the presidential chair to remain the property of the people, or are we to Mexicanize the government by the aid of the big stick?

The Mail states that nobody seriously considers the Ray pumping proposition, and Dr. Ray says nobody considers seriously anything the Mail says, and there you are.

Injunction suits are threatened for water rights, whichever way the city fathers vote for water. They might as well start in and get them through with.

Mr. Merrick vouches for oil being struck in the Pierce well, but then he also vouches for an adequate flow of water in Wasson canyon.

CEMENT INTERESTS PLAN WORKING AGREEMENT

There is probably at the present time more cement work under way in Medford than there has been at any previous time, and now comes the news that the cement manufacturing industry is to be placed under trust control. The combination has not as yet been effected, but a movement to that end has been started, and it is expected that a working agreement will be in operation before many months. An eastern report of the project says: "This is expected to be brought about by the extension of the sphere of influence of the Northern American Cement company, a holding concern under the laws of New Jersey, with \$10,000,000 capital. It will not be an absorption of the existing plants, but an organization based upon the community of interest scheme by which prices will be fixed for all parts of the country and the control of territory distributed.

Under the proposed arrangement a new holding company will be formed in the west, with headquarters probably at Detroit or Chicago. This holding company will be modeled upon the plan of the American Steel association. "The articles of association will be so framed that they will not conflict with the terms of the Sherman anti-trust law, and yet will bind the companies forming the combine. The various concerns going into the scheme will retain their corporate identity, paying to the holding company so much per barrel manufactured, and be subject to a fine every time the price is set under the one established by the combine.

The idea is not to raise the price of cement, but by distribution of territory enable plants to control the local markets, thus avoiding high freight rates on long distance hauls by reason of the invasion of territory tributary to plants in other states. In other words Oregon will not have to go to Texas for a market, nor will Texas be permitted to invade the precincts of Oregon."

MAKING LAND VALUABLE WITH USE OF WATER

KLAMATH FALLS, Or., Oct. 5.—Fred Melhase of this city is to establish a pumping plant and irrigate a tract of 60 acres on the foothills east of town and will set out an orchard as well as use it for garden land.

Between Klamath Falls and Lost river are about 9000 acres of hillside land excellent for fruit if water can be obtained. Mr. Melhase will be the first to put water on this land and declared that from being practically worthless today it will be worth \$200 an acre next year.

The government will put water on this land when its power plant is completed, and Mr. Melhase will use the government survey in building his ditches.

Buy Hay for Less.

KLAMATH FALLS, Or., Oct. 5.—The price of alfalfa hay in the Merrill country has been lowered, and this week 2000 tons were sold at an average of \$7. Some were asking \$8 and \$8.50, but stockmen would not buy and were contemplating bedding in other valleys, had it not been for this decline in price.

STRONG FOR BRYAN IN EASTERN STATES

"I found a strong Bryan sentiment throughout the east," says Leo Jacobs who has recently returned from attending the Redmen's national convention. "Everywhere there is a growing belief that the Nebraska man will be elected. I heard Bryan speak labor day in Chicago, and he received a great ovation. There were only 50,000 union labor men in line in parade carrying Bryan banners while Taft's reply of 'God knows' made an answer to a query as to what should be done with the unemployed was freely ridiculed. The Republicans in Illinois, Indiana and Ohio are badly demoralized by factional fights and nowhere are there enthusiasts for Taft."

TREMENDOUS CROPS IN SIGHT THIS YEAR

The corn crop this year, from the present outlook, will yield 2,700,000,000 bushels, which at the September option price (75 cents) is valued at over \$2,000,000,000. The wheat crop, with an indicated yield of 675,000,000 bushels, at 93 cents a bushel, amounts to \$627,000,000. Thirteen and a half million bales of cotton, which looks likely to be this season's yield, at 93 cents a pound, the present price, would amount to \$641,250,000. The oats and hay crops, now out of danger, are record breakers in quantity and quality. While the combination of crops this year will perhaps not be the largest in quantity, the price that will probably be obtained for them will aggregate, it is estimated, \$8,000,000,000.

YOUNG GIRL SHOWS APTESS WITH BRUSH

Miss Dorland Robinson, 12 years of age, is showing remarkable aptness with her brush in doing oil work. The young lady, a niece of Judge J. R. Neil, has had a farm scene on exhibition for some weeks at the Medford Furniture company's store in this city. It was also exhibited at the district fair. For one so young, and not having the opportunities for study offered in a large city, Miss Robinson does truly remarkable work. She will later take a course in painting, and it may be that some day she will lend fame to western Oregon, even as Homer Davenport has done with his cartoons.

Big Idaho Fruit Crop.

BOISE, Idaho, Oct. 5.—State Horticultural Inspector J. R. Field has just returned from an inspection trip in other sections and the state and reports the largest fruit crop in many years, far exceeding the big yield of 1906, when 475 cars were sent to eastern markets. He stated that about all the produce had been shipped and that good prices had been received for them. The Boise and Payette valleys seem to lead in the production of fruit this season.

\$200 down and \$10 per month with out interest will buy 10 acres of choice orchard land, one mile from railroad station. Call at our office and we arrange to show you these tracts. War-tell & Dixer, west of Seventh street, near Moore hotel.

FAIR TURNED OUT SUCCESS

Final Day Many Attended—Game in Rigs From All Directions

In a blaze of glory, during which the usual played, crowds of merry-makers indulged in contests, fights, and the younger set crowded the dancing pavilion, the Southern Oregon District fair came to a close Saturday evening. Owing to the splendid weather of Saturday hundreds of Southern Oregonians visited the city and flocked to the fair grounds, thus removing from the brow of the committee the frown of perplexity occasioned by an empty exchequer. For the whole came in Saturday in greater number than did they on either of the preceding days.

The races Saturday afternoon were well attended and exciting. One of the best races of the day was between David Harum, driver Edward Purdy and Tindereite driven by W. Lawton. The race was close but never at any time did Purdy take the dust. He was traveling at a 2:20 clip most of the way.

Joe Patterson, from California rode several splendid races in class style. The results of Saturday's races was as follows:

Free for all trotting and pacing race, half-mile heats:	
David Harum (E. Purdy)	1 1
Tindereite (W. Lawton)	2 2
Time, 1:15 1/2.	
Half-mile dash:	
Doctor H	1
Pansy	2
Time, 0:51.	
Relay race, five miles, with nine changes of horses:	
G. K. Moore	1
W. Toll	2
Time, 12:54.	

KLAMATH FARMERS FAVOR CRATER LAKE APPROPRIATION

KLAMATH FALLS, Or., Oct. 5.—H. T. Anderson, director of the Water Users' association and one of the prosperous land owners in the Merrill country, is in the city today to attend the marriage of his daughter. In speaking of the proposed road to Crater lake Mr. Anderson said that he was heartily in favor of it and believed that it would be approved by the majority of the farmers throughout the county. "I have had some experience," said Mr. Anderson, "of the benefit of good roads, and believe they are the salvation of the farmers. The \$50,000 that Klamath county might spend would come back more than double in supplies and labor during the building of the road. The advertisement itself would be a great benefit to the county. I believe it should be extended through the entire county so that every section would be benefited alike."

FRUIT BROKERS HOLD A MIDNIGHT SESSION

PORTLAND, Or., Oct. 5.—It is rumored that the fruit brokers of New York city got together recently, had a midnight meeting down in the subway, and decided that they were not going to pay fancy prices for Oregon and Washington apples. There was at least one commission man who did not attend this meeting, however, and he sneaked off to Hood River and bought 80,000 boxes. A grapevine telegram says that 150,000 more have been sold and eastern commission men have been plentiful in the Yakima, Rogue River, Grand Ronde, Wenatchee and other fruit producing sections.

Prepaid Railroad Orders.

"Something which is of considerable interest to the public generally and which is perhaps not generally known is the system of prepaid orders now in effect between stations of the Southern Pacific company and all points in the United States. By means of this system tickets may be purchased at Medford from any place in the United States and mailed or telegraphed direct to the party wishing to come here. Sleeper accommodations and small amounts of cash in connection with these tickets may also be forwarded at the same time."

J. W. HILL, M. D., Portland, Or.

THE MEDFORD DAILY TRIBUNE HAS THE BEST NEWS SERVICE IN SOUTHERN OREGON.

You Do Not See Many

signs of this character about Medford. We always find a desirable tenant before a good building has been "to let" more than 24 hours, and land owners know we can always find a purchaser if a reasonable valuation is put on property. Consequently Medford does not impress the homeseeker as being "under the hammer." This is as it should be.

This is the season of the year when homeseekers want winter accommodations. Use business judgment; get free rent and make a winning by purchasing one of these beautiful cottages of the

Rogue River Land Company
