MANY APPLES ON EXHIBITION

Many Entries Assured for Apple Display in Spokane British Columbia Enters

SPOKANE, Wash., October 6.—Fifty thousand square feet of apples will be on display at Spokane during the national apple show to be held here December 7 to 12 inclusive, this year. It will be the largest collection of apples ever placed on exhibition, and to house them the big armory building and an additional structure five times as great as the armory will be needed. Apples of all the standard varieties will be included in this display and every style of pack and wrap will be demonstrated. Such proportions has the enterprise taken, that the management has found its original plans entirely disarranged. It was at first intended to hold the show in the state armory which is the largest in the northwest, but so many reservations have been made for space in the various cities, that the management was confronted with the option of limiting the exhibits or enlarging the accommodations. The business men of Spokane promptly raised \$10,000 with which to construct additional buildings and the enterprise will now be allowed to grow to the limit of the increased accommodations. Exhibits Assured Exhibits for the national apple show are assured from all sections where apples are successfully grown. North Carolina has established a cold storage plant for the express purpose of storing choice apples for the Spokane exposition. Other eastern states will be represented, though not on so large a scale. The middle west has promised a number of exhibits in the carload contest for which \$1500 in cash is offered the winners. Michigan, Missouri and Arkansas will send individual or district displays, while Colorado will have entries in the carload contests. Entries from British Columbia Most of the entries, however, thus far have come from the northwestern states and from British Columbia. Idaho, Utah and the Oregon districts will be largely represented, in every class of contest, and Washington will probably lead all the states in the number of exhibits. British Columbia has appointed agents at Kelowna and other points in the fruit belt to collect apples for the Spokane show. The prizes to date aggregate \$25,000 including cash, orchard land, implements and various other kinds of premiums. It is the intention of the management to increase the total prizes to \$50,000. Assurances have been given that the department of agriculture of the federal government will send men to act as judges at the show.

The fruit was sold at the union's quotation and comprises 7000 boxes of Jonathans, Wagners, Rhode Island Greenings, Lawlers, Baldwins, Mammoth Black Twigs and Snow apples. This disposes of about half of the crop handled by the union, estimated at 2000 cars. Ed Binns, the Jacksonville butcher, has been at Portland visiting his family. Herman Jurjens and A.
