TO ASSURE SECURITY.

A certain bank advertises: "This is a safe bank, the United States treasury deposits with it."

The bank in question is a safe bank, as all other local banks are, but it is not made safe by treasury deposits, though the government is made safe before a deposit is made.

Government and state require guarantee before depositing; why not give the humble citizen a guarantee also that his savings will be safe?

"Guaranteed deposits" means that the savings of the masses shall be secured so that when men and women deposit their hard earned money in banking institutions they need not worry for fear it will be lost.

The democratic national platform says: "We pledge ourselves to legislation by which the national banks shall be required to establish a guaranty fund for the prompt payment of the depositors of any insolvent national bank, under an equitable system which shall be available to all state banking institutions wishing to use it."

Mr. Taft is openly hostile to all guaranty systems, but the small depositors are as much entitled to protection as the nation is. A bank guaranty plan, such as that suggested by Bryan, works for the benefit of both banks and depositors.

TIME FOR ACTION IS NOW.

The rains of the past week have swept out the racks placed across the Rogue below Grants Pass by the United State fish bureau, allowing the fish to ascend the stream.

A visit to the dams will convince the most skeptical. In one fish ladder the fish can get half way up, and there they are blocked in a solid mass. In another they can't find the fishway; it is the one up the channel and has but little water coming through.

Enough can be seen at a glance to show that in low water the fishways are almost useless. Now is the time for the fish warden to act, as inaction will force the people to take matters into their own hands to seek a remedy in order to prevent the destruction of angling on the Rogue.

THE WATER PROPOSITIONS.

The cost of the water propositions before the people is as follows: Rogue River, pipe and pumping plant (per contractor's bid) \$197,800; Fish Lake ditch, pipeline, \$154,100; Big Butte Springs, flume and pipe, \$262,410 (flume \$110,000, pipeline, reservoir, etc, per contractor's bid \$152,410).

If a pumping plant is chosen, it will be the Ray proposition and mean a saving in initial expenditure of from \$50,000 to \$65,000.

If a gravity system, the choice is between Fish Lake ditch water, 245 inches in quantity delivered to the city for \$154,100, or 300 inches of Big Butte Springs water for \$262,410, both within the amount of money available.

ATTEMPT TO ESCAPE JAIL FRUSTRATED BY JAILER

OAKLAND, Cal., Oct. 17.—A woman suspected of smuggling two fine tooth saws into a cell in the county jail...

KINGSTON, Jamaica, Oct. 17.—The insurance companies are preparing to delay to pay the thousands of dollars due on policies held by residents of this city...

JAMAICA SUFFERERS SECURING INSURANCE

The English court of appeals has decided that the fire which swept Kingston on January 14 was caused by the earthquake, but preceded it. The decision practically overrules the earthquake clause.

Purity and More As I have explained fully before, Colestin Mineral Water is put up in all its natural purity. This might mean little if I should stop there. However, the quality of this water is such that most doctors in the valley of the Rogue recommend it for weak stomachs and kidneys.

And, as an ounce of preventive is worth a pound of cure, why not use it at the table daily?

You Do Not See Many signs of this character about Medford. We always find a desirable tenant before a good building has been "to let" more than 24 hours, and land owners know we can always find a purchaser if a reasonable valuation is put on property. Consequently Medford does not impress the homeseeker as being "under the hammer." This is as it should be. This is the season of the year when homeseekers want winter accommodations.
