The Irritating Mississippl.

The Mississippi is the greatest irri-tant in the United States. Its fickle-ness, conscious power and taunting eddles bring oaths to the lips of the most respectable and law abilling residents along its lower course. The greatest admirers of the river, the peo ple who sing its praises with the memphasis, are the ones who go off a tangent of temper quickest when they find a new caving of river bank headed toward the newest and most expensive levee, built to protect great plantations, while just across the stream rise worthless bluffs and uscless sand bars. Talk to a Mississippi river man-shanty boater, pilot, raftsman, plantation owner or city merchant- and he will brag about the river wonders Its bigness charms him and makes him feel large and clated. Bring him around to his own experiences with It, and suddenly a shade of resentment crosses his face as he recalls a shanty boat wrecked by a cyclone, a steamboat snagged, a raft torn up in some bend, a plantation undercut and wash ed away or a season's trade spoiled by an overflow and crovasse

"We leve the river, damn it?" is a literal expression. R. S. Spears in At-
