CALVE ILL; MAY NOT SING FOR THREE WEEKS

PITTSBURG, Nov. 12.—Calve, the prima donna, has the grip. She will not be able to sing at the opening concert of the Pittsburgh orchestra tomorrow night, nor will she appear in Cleveland the following night, as scheduled.

It is said tonight that the prima donna will be incapacitated for at least three weeks. She is at the Hotel Schenley under the care of Dr. W. S. Foster.

Calve came to Pittsburgh this evening from Erie and took to bed. She has been suffering from a cold contracted at Denver some time ago and today's raw weather aggravated the ailment.

The manager of the Pittsburgh orchestra is trying to reach Mme. Sembrich, who will be requested to fill the engagement here tomorrow. Sembrich is on the road somewhere and the wires are working overtime trying to locate her.

POLICE LOOKING FOR GIRL WHO STOLE SNAKES

OAKLAND, Cal., Nov. 12.—The police of the bay cities are all looking today for "the Australian wild girl" and a trunk full of snakes, both of which belonged to the Gem theater until yesterday. Despite the fact that this unusual combination would seem easy to find, no trace of the missing attractions has been found.

"The wild girl" decided several days ago to try matrimony, and she confided this to Leo Osborne, an attaché of the place. He two decided to try matrimony together, and were married by a local justice of the peace. The manager of the show was pleased with the news of the marriage, but he did not believe that it would lose to him his snakes.

After the marriage "the wild girl" did not show up at the theater and then the loss of the snakes was discovered. The police believe that "the wild girl" has been turned into a snake charmer under the management of her husband.

WILL CHANGE COLLEGE WEEKLY TO SEMI-WEEKLY UNIVERSITY OF OREGON, Eugene, Nov. 12.—The Associated Students of the university are planning, if finances will permit, to make the "Oregon Weekly," the university paper, a semi-weekly instead of a weekly. The change, if made will probably take place about the time of the Christmas vacation.

Since the number of students in the university has become so large, news matter is much more abundant, and many stories are crowded out each week on account of lack of space. Earl Kilpatrick of La Grande is editor-in-chief, and Dean Goodman of Pendleton business manager.

Contesting Timber Claim.

United States Commissioner E. D. Briggs is taking evidence in a contest involving a quarter section of land in the vicinity of Shake, east of Ashland, says the Tidings. The contestant is C. W. DeCarlow of Shake, who alleges that the land in question which is claimed by Nettie A. Price of Portland, under the timber and stone act, is more valuable for agricultural than for the purpose set forth in the application of the contestee. The hearing was begun on Friday, continued through Saturday and was taken up again this afternoon. Gus Newbury is attorney for DeCarlow and G. W. Trefren for the timber claimant.

Klamath's Assessed Wealth.

The assessment roll for the year 1908, which is now in the hands of the board of equalization, shows the total valuation of property in Klamath county to be \$7,875,493. This is according to the assessment made by the assessor and is as it appears before any changes are made by the board. The assessment last year was \$7,628,891, and to that was added about \$202,000 by the sheriff. It is probable that when the additions are made this year's valuation will exceed \$8,000,000. The valuation of stock in the county amounts to \$348,542.

MONSTER POWER PLANT UPON THE LOWER ROGUE

One of the greatest enterprises of southern Oregon is soon to be inaugurated by the Alameda Consolidated Mines company and it will attract much attention to the Galice mining district. The company is now arranging for the early development of a water power of from six to eight thousand horse power; also to build an electric road to some convenient point on the Southern Pacific Railroad. The dam will be constructed in such a manner that the power can be increased as conditions demand. This improvement will save the company over \$60,000 per year as compared with present methods of transportation and power; also it will be of great value to the district in general, as it will mean cheap transportation and cheap power to the mines, of which that section stands very much in need at the present time.

It is learned that Grants Pass will attempt to secure this new railroad and already steps have been taken to have the line to run from Alameda to a point on the Applegate river where the Illinois valley road is to cross the stream. An effort will be made by the railroad company to acquire the Alameda road as a branch. It may be that the Alameda dam will furnish the power to run the Illinois line. This is a case where both companies will be benefited by consolidating their railroad interests.

The building of an electric line from Alameda to the same point on the Southern Pacific will add greatly to the prosperity of the Galice mining district. The lack of railroad facilities has kept this whole country back for many years.

It is now high time that new and better methods of transportation are inaugurated. An electric road will make a dozen mines in this district paying producers.—Outlook
