### TO SAVE THE GRAFTERS.

Cowardly was the attempted assassination of Francis J. Heney while at his post prosecuting grafters of San Francisco. It makes little difference whether or not the deed was the act of a madman, it fits in so well with the campaign of the defense that it will generally be regarded as part of the widespread conspiracy to thwart justice.

The corruption of courts, the intimidation of witnesses, the liberal use of dynamite, have all been part and parcel of the battle waged to save public looters from convict cells, and now comes attempted assassination. Seldom in history has there been a harder fight to save confessed boodlers and those whose instruments they were in robbing the people, and seldom has a pluckier battle been made against greater odds than the one so gallantly fought by Francis J. Heney.

Against the prosecution of San Francisco's grafters were the allied corporate interests of California, with their almost countless resources; the majority of the newspapers, which are controlled by them, and the disappointed grafters and political heelers of all parties. Bitterly misrepresented, falsely accused, constantly belittled, fighting against the greatest powers, financially, socially and politically, in the land, his previous work undone by a court whose members were appointed by the elements he assailed, the prosecutor was so near success that his life blood was called for to save the confessed criminals.

No more contemptible band of grafters than those of San Francisco ever lived. Not content with looting the city in its prosperity, like harpies, they fattened upon their prostrate victim, shattered by the earthquake and blasted by fire. While the embers were still smoldering they bartered away the rights of the people.

Much fault has been found with Heney because of the methods employed in prosecuting—but convictions could have been secured in no other way. He found it necessary to fight the devil with fire, and used methods long used by corporations in their own defense.

In Oregon, Heney's immunity baths were scattered profusely among the small fry and the business element to secure convictions of grafting politicians. In San Francisco, the process was reversed, and the grafting politicians were let off to secure the punishment of the "men higher up," those captains of industry really responsible for the corruption of municipal and state governments.

Assassination never changed the current of events. The assassin's victims are merely representatives of government, the product of a system, and not the system itself. If Heney is slain, other prosecutors, just as relentless, perhaps more so, will take his place, and, backed by the public sentiment aroused by the assassin's bullet, will render conviction inevitable, for justice cannot always be thwarted, even by prostituted courts.

As a fearless, courageous, gallant fighter, Francis J. Heney has few equals. His work has been for a better, cleaner government. He is admired for his indomitable pluck and stamina and loved for the enemies he has made.

### WILL FIGHT FRISCO'S NEW WATER SUPPLY

SAN FRANCISCO, Cal., Nov. 14.—Following the overwhelming vote in favor of the Hetchy Hetchy valley water supply at Thursday's election, the officers of the Spring Valley Water company are understood to be planning to day an extensive injunction to prevent as long as possible the acquisition by the city of the Sierra Nevada mountains water rights.

President William B. Bourne of the water company held informal conference with his directors all day and held an extended consultation with his attorney. He refused to make any statement, but one of the officers of the company imparted the information that the company will undertake a campaign of litigation that is expected to embarrass the city in its efforts to take possession of the water supply.

The members of the board of supervisors are resting today from their long campaign in favor of the bond issue. Their next step will be the issuing of bonds. Then a bill will be prepared for presentation to the next session of congress perpetuating the city's rights in the Hetchy Hetchy valley.

### SPRAY YOUR ORCHARDS NOW

For Santa Jose Scale, and Use Sampson's Concentrated Lime and Sulphur Solution.

Scale lives and works all the year round. Don't forget this. As the old scale dies the new is ready to carry on the destruction of our orchards.

The scale is less vigorous in the fall, and more easily and surely destroyed than in any other season of the year.

Therefore now is the best time to attack and kill it. If you spray now, many a valuable tree will be saved that otherwise, because of the scale, would not retain life enough to start up in the spring.

You have more time now; there is less wind to scatter and waste the spray, and make it hard to cover every part. Then, too, you cannot tell what may happen to prevent thorough spraying in the fall.

But, above all, the result of fall spraying are absolutely certain.

**Sulphur Solution.**  
These are all "spray facts." We claim no wonderful chemical discovery in this spray, but we do claim most emphatically that:

Sampson's lime and sulphur solution always produces satisfactory results, and does no injury. There is no better spray manufactured than Sampson's lime and sulphur solution.

Sampson's lime and sulphur solution is a clear, cherry-colored solution free from sediment. It is guaranteed to test 35 degrees Baume. If your dealers cannot supply you, write to us. Be sure you use Sampson's spriny.

Manufactured by  
**GRANTS CANNING CO.,**  
Grants Pass, Oregon.

Grand excursion to City of Mexico. Leaves Medford on the 12th of December, 1908, on the regular Overland. \$92.15 for the round trip, good for 60 days. For further information, write to Emil Peil, Ashland, Or.
