Jack Welsh of the Twin Cities was unable to get but one fall Wednesday evening, when he and W. H. West of this city met in a second match. Welsh had agreed to throw West three times in an hour, but succeeded only in throwing him once in 11 minutes and 47 seconds after the start. The remainder of the hour was spent in a lively tussie, which endured for 48 minutes and 13 seconds, completing the hour.

THE VICTOR

In some ways the match was a disappointment, insummeh as West was continually on the defensive, in order to stay out the hour. There was good work done to escape a fall, but the aggreadveness being one-sided, made the match inequal to the first between the

The scale is less vigorous in the fall and more easily and surely destroyed

than in any other sales of the year.

Therefore new is the best time to at tack and will it. If you spray now many a valuable tree will be saved that otherwise, because of the scale, would

not retain life enough to start up in the spring:
You have more time new; there is less wind to scatter and waste the spray, and make it hard to cover every part. Then, too, you cannot tell what may happen to prevent thorough spraying in the fall.

But, above all, the result of fall spraying are absolutely certain
