MEDFORD'S GREATEST NEED.

What Medford needs most after a water system, street paving, house numbering, and a few other things now under way, is a few industries supplying employment—in other words, payrolls.

The sale of orchards at fancy prices, the change of farm land into orchards, the cutting up of large tracts into small ones, are all good things—but something more than swapping owners is needed to build this town into a city.

No region in the world is blessed with better climate or more natural resources than the Rogue River valley. But one of them, horticulture, is developed past the initial stage. It is but a question of time when they will be, and that time should be at hand. Some of the energy now spent in bringing orchard buyers into the country ought to be spent in bringing men who will develop the dormant resources, and assisting them when they are here.

Vast coal fields, miles in extent, stretch along the eastern edge of the valley, fuel enough for the entire coast for many generations. The hills of the western slopes are seamed with gold, the fugitive dust of which netted the pioneers many millions. A few miles toward the rising sun stand giant virgin forests, the greatest sugar pine belt in the world, the cutting up of which into timber will give employment to many thousands for a century to come. The same distance to the southwest stretch mountains of copper ore, the mining and smelting of which would make Medford a second Spokane. Through the valley winds the finest trout stream on the continent to its source near the world's greatest natural wonder, Crater lake.

The development of either coal, of timber, or of the mines would alone make Medford a city and furnish employment for thousands. So everyone should work for the development and aid in every way possible those striving to develop these resources, to the end that city and country may prosper and thrive.

THE PIPELINE CONTRACT

It will be well for the city authorities to carefully consider the contract for water and pipeline before signing—in order that the city may not get the worst of it, as it has on street paving, and on the bond issue.

The Tribune does not claim to look at the subject from any other than a layman's point of view. It has little faith in wooden pipe, but the people have voted almost unanimously for it, and of course it bows to the will of the people.

The Tribune does believe, however, that the contractors should be made to keep the pipe in repair for at least a year, for it will take nearly that long before all faults make themselves known. Thirty days is too short a time. There ought to be a guarantee attached, for what is not worth guaranteeing is not worth buying.

Having once decided that the contract is good and sufficient, there should be no delay in signing it and rushing the construction. Every day that water is delayed means a loss to Medford, just as every day that passes without paving means a loss.

SAFE CRACKERS GET OVER

\$5000 IN CASH FROM SAFE
 TIPPIN, O., Nov. 21.—Yaggen blew open the safe of John Selox's general store at Attia today and secured \$5000 in notes and \$2000 in cash. The robbers left no trace whereby they can be captured.

SALOON MEN TO BE PROSECUTED

KLAMATH FALLS, Or., Nov. 20.—All of the saloon men who were arrested for violating the provisions of the anti saloon law have been held to await the action of the grand jury. In only one instance an effort was made to have the proceedings tried out before the county judge. In all of the other cases the parties waived examination and were held in the sum of \$500 each. In the instance where a trial was held the result was the same as when the examination was waived.

It is now known that there are from three to 25 charges against every one of the 12 men who were arrested. It is the intention of the parties behind the movement to make a cleaning and to allow none to escape. One saloon man who left the country as soon as he learned of the movement has been located at Grants Pass and as he has property interests here, he returned of his own accord as soon as he learned that there was a warrant out for him. In Bonanza and in Merrill arrests have been made as in Klamath Falls and it is certain that if convictions are secured that bootlegging will be a thing of the past in Klamath county.

SPRAY YOUR ORCHARDS NOW

For Sana Jose Scale, and Use Sampson's Concentrated Lime and Sulphur Solution.

Scale lives and works all the year around. Don't forget this. As the old scale dies the new is ready to carry on the destruction of our orchards.

The scale is less vigorous in the fall, and more easily and surely destroyed than in any other season of the year.

Therefore now is the best time to attack and kill it. If you spray now, you save a valuable tree which would otherwise, because of the scale, would not retain life enough to start up in the spring.

You have more time now; there is less wind to scatter and waste the spray, and make it hard to cover every part. Then, too, you cannot tell what may happen to prevent thorough spraying in the fall.

But, above all, the result of fall spraying are absolutely certain.

Sulphur Solution.

These are all "spray facts." We claim no wonderful chemical discovery in this spray, but we do claim just emphatically that:

Sampson's lime and sulphur solution always produces satisfactory results, and does no injury. There is no better spray manufactured than Sampson's lime and sulphur solution.

Sampson's lime and sulphur solution is a clear, cherry-colored solution free from sediment. It is guaranteed to test 30 degrees Baume. If your dealer cannot supply you, write to us.

Be sure you use Sampson's spriny, manufactured by GRANTS PASS CANNING CO., Grants Pass, Oregon.

Prepaid Railroad Orders.

"Something which is of considerable interest to the public generally and which is perhaps not generally known is the system of prepaid orders now in effect between stations of the Southern Pacific company and all points in the United States. By means of this system tickets may be purchased at Medford from any place in the United States and mailed or telegraphed direct to the party wishing to come here. Sleeper accommodations and small amounts of cash in connection with these tickets may also be forwarded at the same time."

Special Limited Pullman Excursion to the City of Mexico.

Tickets will be on sale at the local office December 12 and 13 for an excursion to the City of Mexico. The excursion will leave San Francisco December 15 at 11 a. m. A magnificent special train will be provided, consisting of Pullman vestibuled sleepers, observation sleeper, buffet, smoking car and dining car.

Excursion will be over the Southern Pacific, Mexican Central, Mexican National line, International and Great Northern, Galveston & San Antonio and Santa Fe railways. The round trip rate from Medford will be \$92.15. The going trip will be continuous up to El Paso, but stopovers may be had at any main line point on the return trip. The excursion will be under the direct supervision of some railway official from the passenger department and an interpreter will accompany the party to the City of Mexico.

Further particulars at the depot, or communicate with W. H. Jenkins, traveling passenger agent Southern Pacific company, at 7, Polk, Ashland, Or.
