TRUST BUYS 80,000,000 POUNDS OF TOBACCO

LOUISVILLE, Ky., Nov. 30.—The big deal between the American Tobacco company and the Burley Tobacco society for the 1906 and part of the 1907 crops of tobacco, which has been hanging fire for several weeks, was closed here today. The price agreed on in the transaction, said to be the largest of its kind ever put through, is an average of 20 1/2 cents for the 1906 crop and 17 cents a pound for the 1907 product.

The deal involves nearly 80,000,000 pounds of tobacco held in the pool by the Burley Tobacco society and an outlay of something like \$10,000,000 on the part of the American Tobacco company.

The sale of the pooled crop, it is believed, will mark the end of night riding in central and eastern Kentucky, as it is thought with these crops out of the way practically all the growers will raise tobacco next year.

MARRIED GIRL ONLY TO LEAVE AFTER CEREMONY

SANTA BARBARA, Cal., Nov. 30.—Mrs. Ethel Neville Hartnett, nee Love, is today mourning the loss of true love, gold lace, wealth and social position, all of which was promised her, she says, by F. H. M. Hartnett, whom she is suing for annulment of their marriage five months ago. Hartnett waited into Santa Barbara with an alluring story of his position in the army, his independent fortune and his substantial social connections. The self-styled lieutenant found Miss Love fully equal to her name. She capitulated when he made love to her and explained all the above mentioned qualifications. The marriage was celebrated in style and everything seemed lovely. But Miss Love's dream of social position quickly faded into thin air, when Hartnett departed and failed to leave word where he could be found.

GARDEN WORM CAUSES CANCER, DR. WALKER SAYS

BUFFALO, N. Y., Nov. 30.—The Buffalo academy of medicine last night heard a new theory as to the origin of cancer. Dr. Hiram D. Walker of this city said in a paper on the subject that seven years' experiment has proved to his satisfaction that cancer is a parasitic disease, and that the common garden worm is the source of the parasite which produces cancer. The transmission of the parasite from the worm to the human being comes from the worm crawling over fresh vegetables, which are afterward eaten.

"If I am correct in my conclusions," said Dr. Walker, "all the suffering and death caused by cancer can be prevented by refraining from eating such vegetables as cabbage, celery, onions and lettuce, which have been infected by these parasites."

CLEARs YOUNG MAN WHO KILLED TO PROTECT GIRL

FRANKFORT, Ky., Nov. 30.—I wish to encourage all good men in every honest effort to protect young girls, and I feel perfectly clear that it is my duty to grant Green B. Howard a pardon for killing Jacob Noe in his attempt to save the girl, Rena Noe," said Governor Willson today in setting forth his reasons for the pardon.

"While I recognize in the fullest principle that the jury is the sole judge of the evidence," continued Governor Willson, "there is no doubt in my mind that Howard was acting from motives that are an honor to him, and certainly in a case of this kind, where a man attempts to save a girl whom he has raised, it is the duty of the governor to give him the benefit of the doubt and pardon him.

"Howard was following the girl to save her and doing what a good man should have done. Her father was in the asylum and she had no other protector."

Jacob Noe had stolen the girl from Howard's home for the purpose of marrying her to a man whose reputation was bad. Noe was Howard's brother-in-law and the girl's brother. The men with half a dozen followers met in the highway and fought a battle. Noe was killed and Howard was sentenced to the penitentiary.

Great Revival at Tabernacle.

Sunday was a great day at the Christian tabernacle. Five great services were held. Bible school rally at 10 o'clock. Mr. Whiston spoke to the Sunday school. Four took their stand for Christ at the close of the address.

The morning subject was "The Pattern in the Mount." This was a great sermon. Everyone was highly pleased and greatly profited by it. One confessed Christ.

At 2:30 p. m. a great temperance mass meeting was held. Mr. Knodell of Portland spoke to a large audience. At 9:30 Mr. Longman gave an able address to the Endeavorers, which was highly appreciated by the young people.

The greatest service of the day was in the evening. The large tabernacle was crowded. The chorus numbered over 100. The address was an able one. Whiston is doing some splendid preaching. The chorus did first-class work. The solos were touching. Seven were added at this service—12 in all for the day. Great service tonight. Everybody come.

GIRL FORCED TO STEAL IN ORDER TO EAT

LOS ANGELES, Cal., Nov. 30.—Homeless, hungry and unable to secure work, Evelyn Kahl, a pretty girl 22 years of age, is in jail here today accused of larceny after admitting that she stole a small garden hose to save herself from starving to death. Officers are investigating the girl's story, and if it is substantiated she will be released. C. Baxter, from whom the hose was stolen, informed the police that he did not wish to prosecute the case.

"I have been sleeping on porches and in alleys for three weeks," the girl told the officers today, "and I have actually begged for food. Today I walked the streets seeking work of any kind."

"Thanksgiving day was the worst I hadn't a bite to eat and suffered from the cold. That night I stole the hose and sold it to a junk dealer for enough money to pay for a meal."

FIVE DAYS ADRIPT IN A STEAM LAUNCH AT SEA

SAN JUAN, Porto Rico, Nov. 30.—Captain Stevens and six sailors of the American schooner John M. Brown, which foundered at sea October 30, were brought into Arroyo three days ago by the American schooner Brookline, captain Sears, from Philadelphia.

The John M. Brown left Brunswick, Ga., October 15, with lumber. She encountered a gale, and it is believed that she rammed a floating log. She gradually filled, and when the captain saw her condition was hopeless he and the crew stored a naphtha launch with provisions and put off from the sinking vessel.

Two minutes later the John M. Brown keeled over and went down.

The men were five days in the launch before they were picked up by the Brookline.
