TO REDUCE STREET CAR FARES IN DETROIT

DETROIT, Mich., Jan. 1.—One of the first official acts of Philip Breitmeyer, mayor-elect of Detroit, who assumes office next Friday, will probably be the appointment of a commission of 50 business men to treat with the local traction company in regard to lower fares on the street railways of Detroit. Eight fares for 25 cents, universal transfers and the best possible service are among the demands that the new executive of the city will make upon the United Railways company.

Detroit already has 66 miles of 3-cent lines. Breitmeyer has discovered that the street car business is like running a ship. The operator, he has learned, should not have a difference between 3 cents straight and eight fares for a quarter unless \$211,000 a year is the company, or 1 cent extra from each in every eight passengers. During the life of the 25-cent franchise this extra penny would amount to nearly \$5,000,000.

The city claims that most of the traction franchises expire November, 1909. The railway company continues its willingness to meet in conference with the city, but Mayor Breitmeyer says no new franchises shall be granted unless the company gives eight fares for a quarter, with universal transfers.

WASHINGTON ENTERTAINS THE NATIONAL HISTORIANS

WASHINGTON, Jan. 1.—Washington is today entertaining educators from many of the big universities and colleges of the United States, who are gathering to take part in the sessions of the American Historical association, the American Political Science association, the Bibliographical society of America and the Mississippi Valley Historical association. From Washington many of the visitors will go to Richmond and Baltimore. An excursion to the University of Virginia will be a feature of the closing day of the convention.

UNIVERSITY RAISES LIMIT IMPOSED BY DR. OSLER

MINNEAPOLIS, Minn., Jan. 1.—After today the faculty of the University of Minnesota will include no professors over 65 years of age, thus raising the Oslerian limit five years.

Sixty years was the limit set by Dr. Osler to an active and useful life. The famous surgeon of the former Johns Hopkins professor has been accepted and repudiated alternately many times at late in high business and political circles.

As a result of the near-acceptance of the Osler theories by the board of regents of the University of Minnesota, some of the old "profes" will lose their jobs. The action of the board has created a commotion in the university circles and throughout the state, as the members of the faculty who are to be "Oslerized" are popular and are considered able.

SEXES SEGREGATED AT UNIVERSITY OF CHICAGO

CHICAGO, Jan. 1.—Under a new rule adopted by the University of Chicago, effective today, women students will not be allowed to live in the same boarding houses where male students are housed.

It is the custom of the university to "assign" students to suitable boarding places, and as landlords are thus somewhat dependent upon the institution, the faculty hopes to be able to enforce the new rule without difficulty. The landlords are to be instructed to provide reception parlors for the young women where they can receive calls at "suitable hours."

KING EDWARD WRITES LETTER TO CARNEGIE

LONDON, Jan. 1.—King Edward has sent the following letter to Andrew Carnegie, New York:

Windsor Castle, Dec. 21, 1908.—Dear Mr. Carnegie: I have for some time past been anxious to express to you my sense of your generosity for the great public objects which you have presented to this country, the land of your birth.

"Scarcely less admirable than the gifts themselves is the great care and thought you have taken in guarding against their misuse.

"I am anxious to tell you how warmly I recognize your most generous benefactions and the great services they are likely to confer upon the country.

"As a mark of recognition I hope you will accept the portrait of myself which I am sending to you.

"Believe, dear Mr. Carnegie, very truly yours,

"EDWARD, R. and A."

A Map of Jackson County

The Tribune and Southern Oregonian is having made at great expense a fine, colored, lithographed map of Jackson county.

This map will show all cities, towns and villages, rivers and waterways, section and survey lines, railroads and projected railroads, wagon roads, forest reserve boundaries, election precincts and other data needed by everyone. All townships shown in colors.

This up-to-date map will be ready for distribution some time in December. It will be sold only through The Tribune and Southern Oregonian.

This will be your only chance to secure a good map of Jackson county, as all map editions are out of print and plates were destroyed in the San Francisco fire, necessitating new plates made at an enormous expense. Further details later. Ready soon.
