PORTER BILL WOULD BE GREAT LOSS

Resolutions Are Adopted By the Hood River Apple Growers and Sent to Delegation in Congress

Protesting against the provisions of the Porter bill, which is now before congress, the directors of the Hood River Apple Growers' union has passed a set of resolutions...

Special attention is called by the union to section 4 of the Porter bill pertaining to grading, which reads as follows: "No. 1 grade and quality shall consist of healthy, well grown apples of one variety, sound, of not less than 2 1/2 inches in diameter and of good color for the variety; or normal shape and not less than 90 per cent free from scab, wormholes, bruises and other defects, and properly packed."

The Hood River valley and all other apple growing districts of the northwest declares the union has always packed perfect apples less than 2 1/2 inches in diameter into 4 1/2 and 5 tier packs and labeled them No. 1 or fancy fruit. The provisions of this proposed bill will eliminate the 4 1/2 and 5 tier fancy apples entirely from the shipments of the northwest, and class these sizes as No. 2 fruit instead of fancy or No. 1 grade. This will affect at least 35 per cent of the fancy apple output of the entire northwest, and throw it into the second grade class, which means an enormous loss to the apple growers of the entire Pacific northwest.

Text of Resolutions. The resolutions follow in part: Resolved, That the Hood River Apple Growers' union representing 250 of the leading apple growers of Hood River valley, does most earnestly protest against the passage by congress of the Porter bill, H. R. 21,400, being a bill concerning standard packages, grades and marking of apples, for the reasons hereinafter to be stated as follows: "The growers of Hood River valley have through long, diligent and intelligent effort arrived at a standard method of packing the apples grown in this vicinity; that the present box used by the growers in packing and shipping said apples has been found through experience to be the one best adapted for this purpose, and enables the grower to maintain a uniformity and beauty in the arranging and packing of the fruit that cannot possibly be had in any other sized box or package."

Change Would Be Costly. That the adoption of a box of the dimensions proposed in the Porter bill would cost the growers of the northwest over \$1,000,000 annually by reason of the disarrangement of its methods of long standing, which have contributed most materially to the high standard of Hood River apples, and by reason of the fact that the grower would be compelled to bear the cost of the surplus fruit necessary to fill the box, as proposed by the bill, without any additional compensation; that it is impossible for the grower to make the apples fit the box, but that the box must be shaped to fit the apple; that the box in present use by the growers in this valley is the one exactly adapted to the fruit.

Will Lower Grades. That the grades as provided in said bill would eliminate at least 35 per cent of the entire crop from being classed as fancy stock, which are marketed of the world here; heretofore accepted as such without question, by reason of the elimination of sizes of apples less than two and one-half inches in diameter, which sizes constitute 4 1/2 and 5 tier apples."

KENTUCKY MAN SAYS HE IS "SKEERED TO DEATH" DANVILLE, Ky., Jan. 3.—Leslie Gregory of this city, who had Lizzie Tillman arrested for threatening to "hoodoo" him, but who was acquitted at her trial before Judge E. V. Puryear, now claims to have actually received the "hoodoo" from the mystic hand of his arch-enemy.

He claims that his stomach is inhabited by mosquitoes and bugs and that he lives in constant terror. "I am skeered to death all the time," he said. Treatment of a quart of milk boiled down to a pint with a dime cup in it, administered by a "hoodoo" doctor failed to scare off the "hoodoo."

ANTI-TRUST BILL SENT TO GRAVE

Purdin Defends Measure Indefinitely Postponed by Viva Voce Vote--No One on Record Against It

STATE HOUSE, Salem, Or., Jan. 29.—While only a few members of the house appeared willing to have their remarks placed on record in the case of Purdin's anti-trust bill, H. B. No. 27, a decisive majority sent the proposed law to an early grave. No tab was kept on the vote, which was viva voce on indefinite postponement. The bill defined a trust and provided criminal penalties and civil damages for all combinations entered into by persons, firms, associations or corporations with the intention to prevent free competition in commerce or any class of business. It was reported unfavorably by the committee on corporations, composed of Brady of Multnomah, chairman; Miller of Jackson and Buchanan of Douglas and Jackson.

Purdin defended the act as in the interest of the people. Brady and Carter expressed the opinion that it went too far. Buchanan said he had no doubt it would work a hardship on fruit and hop growers. Leineweber voiced his surprise that fruit and hop growers believed anti-trust legislation would hurt their business. Reynolds took a stand against the passage of the bill.

PLAN TO ADVERTISE STATE'S RESOURCES SALEM, Or., Jan. 29.—Twelve thousand dollars for advertising the climate and resources of Oregon is the plan advanced in a bill introduced by Bailey of Multnomah. TERRORISTS WITHIN THE CZAR'S PALACE ST. PETERSBURG, Jan. 29.—Police investigation into the latest bomb explosion has brought to light what is believed to be a terrorist plot against the emperor and his family. Entering a crowded cafe in the central part of the city, a student left a small packet on one table while he went to pick up a paper from another. A waiter touched the packet, which exploded, killing him and wrecking a part of the cafe. During the panic the student escaped. Twenty arrests have been made in St. Petersburg, and among those taken into custody is said to be one of the czar's servants at Tsarkoe Seloe.

WOULD HAVE WRECK OF THE MAINE REMOVED WASHINGTON, Jan. 29.—President Roosevelt yesterday sent to congress a message approving the recommendation of Governor Magoon that an appropriation be made to remove the wreck of the battleship Maine from Havana harbor. The message follows: "Governor Magoon, on the eve of leaving Cuba, has expressed the hope that the wreck of the battleship Maine may be removed from the harbor at Havana. I trust congress will see the wisdom of this suggestion and will provide for the removal of the Maine. We should not allow the wreck of this historic ship to remain as a danger to navigation in Havana harbor. This is wise from a standpoint. An appropriation should be made for the removal."

PRESIDENT ROOSEVELT TO HAVE NAVY IMPROVED WASHINGTON, Jan. 29.—President Roosevelt believes the organization of the navy department is not such as to bring the best results, and he appointed a committee today to consider certain needs of the navy. "His action was somewhat of a surprise, in view of the fact that the members of the committee appointed today met at Washington two weeks ago and endorsed Secretary Newberry's plan of reorganization, and in view also of the authorization by the senate of an inquiry into naval expenditures and the need, if any, of legislation to improve the administration of the navy department."
