More Men Are Soon To Be Issues Article Dealing With Added in Putting in New Telephone System Here

Monday on the new telephone system for Medford that the Pacific Telephone ompany is installing to replace the resent service, which it is admitted the city has outgrown. Ten men were out to work rewiring houses and the adance will work installing telephone poles. One car of poles have arrived, the first of 20 curs undered here. One car of wire has been received and an

other is on the way.

Six miles of cable will be stretched on the new system to replace the net work of wires now may. Part of them will be laid in subways. Many of the new poles will be placed in alleys. When ampleted, Medford will have the at phone aystem of any small city of the famil

If another system were installed, i If another system were installed, it would mean a regular forest of poles along the streets, states the telephone ben, for there would be two systems of poles in addition to the light and power poles. Merchants and luminose men will have to just two phone ron tals, and those who had the proposed Citizens' line would get no long distance service. Grants Pass' council has re-tused the franchise asked for, so that Medford customers would only be able to talk inside the city.

The many disadvantages of a dual dinne system have been reaped wher yer tried. There is no sity that has ried two systems without regretting if and if the Parific Telephone common nodernize its system here and give Modford should encourage a rival we

Mrs. S. H. Hodge met with a very para ful needent last week, and as result was severly burned on the hand, by an in the rear parch of her home, her hand came in contains with the wire, which was undoubtedly ercored with sine high tension wire. The current drew her hand onto the ware until it was necessary to cut the power off before for hand could be released. Her thumb was badly harned and accordance the current countries of the current hand could be released. Her thumb was badly harned and accordance the current countries of the current countries of the current countries of the current countries. Either practices of the current countries are considered.

LEWIS WRITES

Pruning Work in Apple Orchards of This State

Professor C. I. Lewis of the Orego gricultural college has bound the folwing article on apple pruning;

It is almost impossible to give hard and fast rules for apple pruning that will apply in all cases. For altitude attente, and, and variety, all exert. fring influence. Local climatic cor littous are to a more or less degree as and the general conditions of the acameterd to make a very large growth sitting back in order to stumbate the

Be Careful of Your Trees.

noney, With the I seared tree you an head low; that is so the branches more from 18 to 25 inches from the

Heading the Tree.

In breaking the tree. In heading the tree it is not make given a union the practice of siting is off as about these high-that a 18 is 20 lacker. This practice have yet reason all the breakles to start roll the strain will some at this point, a whetever row may throughout the action of row will find throwands of actionst can will find thousants of the that have been rained because her mined because her mined and the state. We also could have been advisted in his measure of cases by a little care forming the head and by careful sites, in the first low years of the se's life. Instead of cutting our young he at the cast which we wish the ead to form any 18 inches, hence to 10 lift inches more used. Living the very hunches of any face which all having the rest branches of any face within at head to form any case so that built species with the cast to the state of the st Average Man Should Wait.

burered, and better mait autilities fol-ioning March. At this time our young to will have treen give to a drawn thing. Our should first furely as a martine we are a grown a realist open from an are with a rester. A great making accises on this subject and of the hitter feeling is aroused. A good to better feeling is aroused. A good in past tree can be grown, however, its either method. The center tree is a dealist in the majority of cases the stronger, while it is generally easier to

nore or less of local conditions and vainty. Those tall rangy trees, such as splitzenberg, Northern Spy, King of Tompkins County, etc., I should recom-need to b. grown by the open system. Many of the sprawling, rather weak growers, that often tend to grow too low, such as Jonathan, Bellflower and to nessip, I should attempt to grow with

center a few years at least. A very rong and desirable tree can be built 7 allowing a center to grow until it ets to a height of about ten feet and ion do not allow it to grow any higher. To return to our young tree, seelet from there to five of the best branches you wish a center tree, allow one of hese to remain somewhat longer that he rest. These branches should be se erely out back. Here in the Willam tte valley. I practice cutting them nick to stubs eight or ten inches in Where the branches are sor what unbalanced as regards vigor, I at the stronger back more severely hun the weaker, so as to force the growth into the latter. The next year each of these three to five branches will ive rise to three or more new branches a some cases six or eight will arise. As

rate I do not allow more than two f these to remain. Choose strong ranches in such a way that no bad orks will be formed, tud out these re-maining branches in turn back to eight r tentinch stubs. As a rule there will a little interal growth at this time, the Jonthan however a good deal lateral wood will often form. One ould take care at this time to thin t the weaker of such wood and also ad back branches that show a strong

entency to grow inward across the utting! Why grow a strong tree only t ick if to pieces? The naswer is that in practice thickens up the trunk and ain branches of the tree. It also un branches of the tree. It also remited, as elbows are formed by this beading in. This means that a grow. There are, however, some Motorleaves Jacksonville... 1:30 p.m. ptions to this, especially in the case Motorleaves Jacksonville... 7:30 p.m. the Gravenstein, which often has contrary liabit of growing where it leases, regardless of the direction of ic bud pointing. But as a rule, if one unlies the buds closely, they are a real help in ferming a well balanced

Tuesday's election in Jacksonville sustained a new water system and co ment sidewalk, Officers elected: Coun-cilment Emil Britt, G. A. Davis, Chas. Dunfort, T. T. Shaw, Fred Fick; city marshal, John H. Huffer; street comssioner, B. E. Haney.
