MRS. C. T. NICHOLSON. Mary A. Norton was born in Henry county, Indiana, March 10, 1842. At the age of 16, with her parents, she moved to Lyuville, Ia., where on May 5, 1861, she was married to Charles T. Nicholson. She resided at Lyuville until 1891, when she came to Medford, Or., with her husband and children, and resided here until her death, which occurred at the family residence on March 8, 1909. By her death a husband, who, hand in hand with her, has traveled over life's rugged pathway, has lost a most devoted helpmeet. Besides the devoted husband, she leaves to mourn her demise the following children: Horace G. Nicholson and Mrs. Edith Butler of Medford; Will Nicholson and Lizzi J. Leever of Port Klamath and Mrs. Mamie Slagle of Coquille City. The deceased in her religious life had but two guides, the Holy Spirit and the Bible. Under their teaching her character and habit of thought was framed and developed, bringing out in everyday life the beauties of holiness and the power of a simple faith in a simple gospel, which as wife, mother and friend, made her lovable, faithful and true in all the relations of life. Her end was peaceful, for her sun set amid the clouds of purple and gold which were the reflection of the splendors of heaven. "God touched him with his finger and he slept," so the poet wrote. So may we say of this dear life: "God touched her with his finger and she slept," but not until a beautiful life was lived, a noble example for patience, fidelity and faith were given not until visions of a heavenly life, in Christ, had cheered and illumined the valley of the shadow. And now that she sleeps, memory takes up the harp of life, and smiting the strings, finds that her virtues melt into music. So it ever is, when a life is nobly and divinely lived, as was that of the deceased. Well may her children cherish her memory as a precious legacy, and we vain would say a word of comfort to the stricken ones. We can but let our tears flow in sympathy with theirs, and point them to the promise: "At eventide it shall be light." Funeral services were held at the late residence Friday afternoon, Rev. C. H. Hoxie preaching the funeral sermon.

Chalmers-Detroit "30" Price \$1,500 A 4-cylinder, 5-passenger, high-grade car. Made as Touring Car, Tourabout and Roadster B UT DON'T PAY \$1500 FOR AN INFERIOR CAR. There is no need now to accept inferiority because you want a low-priced car. You can demand—in all save power—the utmost the world can give. Remember that when bicycles were cut from \$150 to \$75 you got better wheels than ever. So in automobiles. The best car man can build, under 30 h. p., can be sold for \$1500. In fact, the Chalmers-Detroit "30"—sold at that price—is the most advanced car on the market. There is no need for skimping anywhere. No need for buying a makeshift. No need for taking an out-of-date car, or an inexperienced make. For \$1500 you ought to buy as good a car of 30 h. p., judged by design and mechanical features, as any price could make. That is just what one gets in the Chalmers-Detroit "30." A 27,000-MILE TEST. One of these cars—a stock car—has run 27,000 miles. For 100 consecutive days it made 208 miles per day. It made those 20,800 miles without missing a trip, and without a single mechanical breakdown. The same car had run 6000 miles before this test was begun. No other car at any price ever stood such a test as that. When this car had run 27,000 miles we took out the bearings—in perfect condition—and exhibited them at the New York and Chicago shows. On election day, last November, 100 of these cars, in 100 cities, each ran 200 miles without a stop of the engine. Plenty of other cars have made non-stop runs. But never did 100 cars of the same make all fulfill such a strenuous test. So the Chalmers-Detroit "30"—at \$1500—has proved reliability and endurance better than any other car ever made. THINGS THAT OTHERS LACK. Naturally this car has many features which our competitors lack. It is natural also that those who lack them should try to belittle them. The four cylinders in the Chalmers-Detroit "30" are cast together, as in most of the late foreign cars. One purpose is lightness, compactness and perfect water circulation. Thus we also secure the popular short bonnet and give the extra room in the tonneau. We replace this four-cylinder block for \$35 should it freeze and crack. So this risk is not so great as on separate cylinders. If one cylinder freezes, all probably will. It is cheaper to replace one block of four than to replace from two to four separate cylinders. We also use the two-bearing crank shaft. Thus we secure perfect alignment, which none can secure with four and five bearings. We make this crank shaft eight times as strong as is necessary, to eliminate all risk of bending. Our wheel base is 110 inches. We use the Unit Power Plant. Our gas intake is water jacketed. We give you the new one-pedal control. The tires are the Diamond Quick-Detachable. Every feature is in accord with the best engineering practice. OUR "FORTY" AT \$2750 GIVES THE UTMOST VALUE THAT ANY PRICE CAN BUY. The Chalmers-Detroit Forty excels our "30" only in size and power. It was designed by Mr. Coffin, and has for years been recognized as the best medium-priced car on the market. I thus won scores of important events. This is as good a car as any price can buy. To pay more is extravagance. All that anyone wants in a 5-passenger car is here in its highest perfection. The dandy car—quiet, speedy and powerful. We have never been able to supply the demand for them. Last year we ran 200 short. Made in several styles of bodies—Price \$2750. The "Forty" Roadster is the raciest-looking car of its class. For a demonstration appointment, call or phone Medford 3163.
