

## ANIMALS WILL BE SEEN IN PARADE

Norris & Rowe Will Show Large Menagerie in Their Big Parade in the Morning.

More attention than ever has been given this season to the free street display which has always been a remarkable feature of the Greater Norris & Rowe circus. Those who find perennial pleasure in circus parades will not be unusual in their appreciation of this season's spectacular pageant upon the streets.

Norris & Rowe claim to have as great a menagerie as any circus in the world. They have so many wild beasts that they can open the doors to the public gaze and still have a large menagerie in the annual tent to please the most enthusiastic lover of wild animals. Therefore all dens and cages in this season's parade will be thrown open. The costumes of the riders are entirely new and unusually picturesque this year; more bands of music have been added; the sleek, well educated thoroughbred horses will share in interest with the superb heavy draft stock. Camels, llamas, dromedaries and elephants will lead the procession. Beautiful new tableaux floats and artistically carved wagons will be shown. The two big wagons containing the always-looked-for clowns have not been neglected, so that the children may have their annual laugh. The parade starts every morning at 10:30 and it always attracts dense throngs to the shopping districts. The tiny baby camel and the little lion cubs will be displayed in the parade, and once the children see these features, they will probably have eyes for nothing else.

Wood yields one-fourth of the heat of coal; charcoal about the same heat as coal.

**A Five Year Clock.**  
There is a clock at a railway station in Belgium which requires winding up only once in five years. It was placed there by the government in 1881 and keeps capital time.

**Morocco Leather.**  
Genuine morocco leather is made of goatskins, tanned with pure sumac.

**Throwing the Slipper.**  
The marriage custom of throwing the slipper originated in France. An old woman, seeing the carriage of her young king, Louis XIII, passing on the way from church, where he had just been married, took off her shoe and, flinging it at the coach, cried out, "Tis all I have, your majesty, but may the blessings of God go with it."

**Hair Growth.**  
Hair grows at the rate of thirteen-millionths of a yard a second.

**Tobacco Juice.**  
Nicotine is a nearly colorless alkaloid and is present in smoking tobacco only in small quantities. The brownish "juice" that is found in the stems of pipes is not nicotine, but mainly a mixture of tar and water.

**Chloroform.**  
Chloroform was discovered by Samuel Guthrie in 1831.

**The Bearded Vulture.**  
The lammergeier, or bearded vulture, of southern Europe is known by the natives of the countries it inhabits as the "bone breaker" from its habit of dropping bones upon rocks from great heights to crack them, enabling it to get at the marrow.

**Monster Moths.**  
Gray and black agrippina moths are thirteen inches from wing tip to wing tip.

**The Word "Pean."**  
"Paeon" or "pean" at first denoted a hymn to a help giving god. "Paeon" having been a title of Apollo. By extension it may mean any song of triumph or even a song merely joyous.

**The Wine Product.**  
The vineyards of the world yield 3,554,416,000 gallons of wine a year.

**A Severe Winter.**  
The winter of 1858 was a hard one in Europe. Charles X. of Sweden crossed on the ice the Little Belt, the strait between Funen and the peninsula of Jutland, with his whole army—foot, horse, baggage and artillery. The rivers in Italy bore heavy carriages.

**New Zealand's Wealth.**  
New Zealand's wealth is \$1,500 per person and is the highest of any country in the world.

## NATIONAL LEAGUE IS OFF ON ANNUAL RACE

Paramount Question This Year Is Whether the Chicago Cubs Can Come On or Not.

NEW YORK, April 14.—Can the Chicago Cubs "come on" again?

This is the paramount question in the National league, whose thirtieth season opens this afternoon. It is paramount for the reason that if the Cubs do win it will be their fourth successive pennant and the equalling of a record that has stood since 1875, when the old Boston club, under Harry Wright, won its fourth straight championship.

Five times since then a team has managed to crowd three pennants in a row. Should Frank Chance break the seeming limit and breast the tape ahead of the others this year, he will be given credit for achieving the greatest feat ever accomplished in baseball, for the national game now, compared with the time when Boston made its record, is a different proposition and one that demands far more cunning and executive ability.

Chicago had such a terrific struggle to nose out the New York Giants last year, being saved through the now historical blunder of Substitute First-Baseman Fred Marge, who failed to win a game against the Cubs by forgetting to touch second base after a hit had scored what should have been the winning run, that thousands of fans are brave enough to hope that this year Chance's great machines will slip a cog and come a cropper.

As a standpatter Manager-Captain Chance is the equal of Speaker Cannon, and if he had his way the Cubs would start the race with the same lineup as that which brought final victory to them last year. Two faces, however, will be missing, and they are two of the brightest prizes in the baseball Louvre, Johnny Evers and Johnny Kling. Evers has been given permission to continue with his Troy shoestore until June 1 and Kling has passed up a reported salary of \$10,000 to settle down and attend his Kansas City poolroom.

With these two Johnnies not "on the spot," the Cubs will be handicapped, but the Chicago bunch are fighters, as a quarter of a million of New York fans know to their sorrow, and no one around these parts is as yet wearing crepe for the Cubs.

Unless prognostications receive a black eye, the same four teams that have lately got into the habit of occupying the upper berth in the National league will again hold this division. The only team that the dopesters concede to have a chance to crowd out either Chicago, New York, Pittsburg or Philadelphia, is Cincinnati. Early season reports show that Manager Clark Griffith the new Red Leg pilot, has got together a lively bunch of youngsters and at the same time has enough seasoned material on hand to lend ballast to his craft. If it were not for the fact that "blowing" up is a favorite failing of the Reds, the team would be taken much more seriously.

## WOMAN BURNED TO DEATH WHILE ON DRUNKEN SPREE

TACOMA, Wash., April 14.—Mrs. J. C. Briggs, aged 32, was burned to death in her home last night, when the covers of her bed caught fire, presumably from an overturned lamp. Her death followed a drunken revelry in which she and her husband engaged. Her husband was arrested. He states that he was not in the house when the accident happened.

  - WANTED—To borrow, \$700, good security. Address Box 118, Medford, Or. 24.

## ORDINANCE NO. 189.

An ordinance causing the cost of construction of lateral sewer along F street in the city of Medford to be assessed against the property directly benefited thereby and adjacent thereto; declaring said assessments and directing the entry thereof in the docket of city liens.

The city of Medford doth ordain as follows:

That no protests having been filed against the assessment of the cost of the lateral sewer along F street in the city of Medford, notice there-

of having been given to the owners of the property thereby affected as provided by the charter of the city of Medford, the council has considered the matter and hereby declares the cost of said sewer to be assessed against the respective parcels of property in the respective amounts set opposite said respective parcels; which said parcels of land are hereby declared to be directly benefited thereby in such respective amounts in such proportion, all as hereinafter set forth in detail.

Office of the City Engineer.  
F Street Lateral Sewer Assessment.
