man prefers the smaller sizes, say from 128 up. The Spitzenbergs are all marketed in New York, very few being exported.

Mr. Day stated that there are virtually only four sections in the United States that produce high-grade Spitzenberg and Newtown apples. These sections are the Rogue River valley, Hood River, Wenatchee and North Yakima. Each of these sections are naturally striving to surpass the other in the quality of fruit grown.

General prosperity is predicted for the entire country by Mr. Day as soon as the tariff question is settled. He looks for a big boom in 1910 unless something very much unexpected occurs.
