JACKSON COUNTY GAME LAWS.

The game laws of Oregon, corrected and revised, have been published by the state printer. It is the first time in many years that an effective game law protects both game and fish. There are many new features, and on the whole the law provides for better protection than any previous law has. Those sections of the law that will interest the sportsmen of Jackson county and southern Oregon are as follows:

Deer—Killing of females and fawns prohibited. Open season for bucks, August 1 to November 1. Limit, five in one season. Unlawful to use dogs, to watch trails or licks, to sell flesh, hides or horns, unless tagged, to mutilate carcass to disguise sex.

Mountain sheep, antelope—Perpetual closed season.

Silver gray squirrel—Open season, October 1 to January 1. Ground squirrels exempted.

Ducks—Open season, October 15 to February 15. Limit, 35 in seven days. Sale permitted between November 15 and December 15. In Klamath county open season from September 1 to February 1.

Geese and swan—Klamath county open season from September 1 to April 1.

Prohibition upon the use of sink box, sink boat, mesh boat or power boat, swivel and pivot guns, blind over 100 feet from shore, fire and flashlight at night in shooting wild fowl.

Chinese pheasant—Unlawful to kill in Jackson and Josephine counties, golden, silver, copper pheasants and English partridge, Hungarian partridge and Bob White quail shooting unlawful.

Quail—Open season October 15 to December 15. Limit, ten to one day, twenty to one week.

Netting, snaring—Trapping game animals or birds prohibited. Robbing or destruction of nests prohibited. Use of poisoned grain forbidden.

Trespass—Unlawful for hunters to enter growing grain or upon premises without permission of owner.

Shore and wading birds (rails, plovers, snipe, etc)—Open season October 1 to March 1. Limit, 50 in one week. Setting fire to tule swamps forbidden.

Trout—Lawful at any time to catch in Rogue river and tributaries with hook and line. Limit, 75 in one day. Sale prohibited. Night fishing forbidden. (In Klamath county limit is 25 or 20 pounds). Power, gas, lime, poison forbidden. Sawdust, waste, etc., must not be cast in stream.

Hunters' license—One dollar a year for residents, four dollars a year for non-residents.

Wire screens—All inlets to canals, conduits, ditches, mill races, must be screened by wire screens or grating to prevent fish from entering. Grating device must not exceed one-half inch mesh.

THE BREAD CORNER.

The firm of Wheat King Patten is said to have cleaned up many millions by his corner in wheat. At any rate, Mr. Patten has unloaded and skipped from the maddening roar of the pit to the quiet and seclusion of a New Mexican ranch, where he is enjoying life, having in a few months pilfered enough to live in luxury the rest of his days. And the public, as usual, is paying the freight.

Commenting upon the bread corner, the New York World says:

With wheat and flour soaring in price, with loaves of bread diminishing in size and with an increasing public

demand upon the president and congress for action, the man responsible for the present situation in breadstuffs vehemently denies that he has cornered the market. He is merely a merchant. He foresaw a scarcity. He did not forestalling. He simply bought wheat when he knew it was cheap and he now has it for sale at a profit.

So say they all. Few of the daring operators who have attempted with more or less success to monopolize markets have been willing to admit that they contemplated a corner, and the one now in evidence is not likely to do so. There are laws in Illinois against forestalling and against corners. There is a law also, which has been upheld by the supreme court of the state but rarely enforced, prohibiting dealing in futures.

Gamblers in wheat are shrewd enough to point to the high price of cash wheat—that is, real wheat—as proof that their speculation is not responsible for the advance in futures, but if it had not been for the manipulation of futures there would be no such demand now for the actual grain. These operators probably have bought and sold many times over all the real wheat that there is in the country. By such methods they have gained control of a great proportion of the visible supply.

It is not so easy to see how the national government can reach these evils, but states which permit manipulators to monopolize food and filch unearned millions from the pockets of the people are shockingly remiss in their duty to themselves and their neighbors.
