

PAYS \$2500 FOR TRIP TO NEW YORK

For Privilege of Traveling Alone
Across Country Redlands
Women Pay High.

LOS ANGELES, Cal., May 28.—For the exclusive privilege and pleasure of traveling across the continent in a private Pullman car, the wealthy Miss Olivia Stokes and her niece, who have been wintering in Redlands, will pay nearly \$2500. They leave on the Santa Fe tomorrow in the private car Commonwealth, bound for New York city, their home.

For several years Miss Stokes has spent the winters in her residence at Redlands. Each time she has journeyed in a private car, preferring its comforts and seclusion to the ordinary Pullman.

It will cost Miss Stokes \$600 for the privilege of chartering the car, the price of 18 fares to Chicago at \$59.20, a matter of \$1085.60, and also 25 fares from Chicago to New York at \$20 each, or \$500. This makes a total of \$2165.50 for carfare alone, all for two fares from Redlands to New York.

In addition they will pay for stocking the car and for other incidentals necessary for such a luxurious trip, enough additional to make the trip cost \$2400.

The New York Central will send a conductor to meet the train at Needles and accompany them the rest of the way east.

The Misses Stokes have a pronounced aversion to traveling on Sunday. They will, therefore, tarry next Sunday at Lawrence, Kan., resuming the trip Monday. That will, of course, cost them one day's additional charge of \$50 for the charter of the car. But then they don't want to travel on Sunday, and that settles it.

Miss Stokes is a sister of J. Phelps Stokes. Her sister, Miss Carolyn Stokes, died suddenly at Redlands a few weeks ago and was buried there.

WARNS PUPILS NOT TO USE FACE POWDERS

NEW YORK, May 28.—Miss Rachel Benjamins, principal of a branch of the Washington Irving high school in West End avenue, has served notice on all of her girl pupils that those who come to school hereafter with powder on "beauty spots" on their faces will be stood up before their classes and the embellishments publicly washed off.

The principal said that the custom of painting and powdering had increased among the young women pupils to an alarming degree.

The school is attended mostly by the children of wealthy and prominent families.

KING LEOPOLD SELLS PORTRAIT TO NATION

BRUSSELS, May 28.—The national museum has purchased King Leopold's Vandyke portrait for \$30,000 and now is now negotiating for a Rubens, for which the king asks \$200,000.

SPLENDID MUSIC AT SEATTLE FAIR

Noted Musical Organizations From
All Sections of United States
Will Be Present.

SEATTLE, Wash., May 28.—Music is to hold her accredited place at the Alaska-Yukon-Pacific exposition which opens at Seattle the first of the month and continues until October 16. The leading bands of the United States will be in attendance to give daily concerts, and various soloists, choral bodies and orchestras will from time to time assist.

The Alaska-Yukon-Pacific exposition is fortunate in having as its director of music one of the most noted leaders of the country—F. N. Jones. He is the leader of the Jones Orchestral band of New York, an organization of 60 pieces, and many noted soloists, including Virginia Listmann of Boston, soprano; Dr. H. J. Williams, Wales, England, harpist; Kuchynka, Budapest, Bohemia, string bass virtuoso; and Kegel, the well known cello soloist.

Liberati's concert band of New York, 50 pieces, with the famous cornet virtuoso directing, and Ellery's Royal Italian band of 50 pieces are other eastern organizations to be heard at Seattle.

The exposition Administration band is one of the largest musical organizations ever assembled. Marching bands from all parts of the Pacific coast and the famous Philippine Constabulary band are expected. Mexico will send leading musical organizations.

The Seattle Symphony orchestra, which has made remarkable progress since organized, will be heard with noted soloists.

Scottish pipers from Ottawa, Can., will furnish a sensational novelty.

Director Jones has written the official march of the exposition to be called "Gloria Washington," and Carl Busch, the celebrated Danish composer, has composed a festival march for the opening exercises.

McDowell and Wagner concerts are planned with other numerous special events.

RATTLER IN GIRL'S HAT STRIKES HER BROTHER

MASON VALLEY, Nev., May 28.—The 7-year-old son of Andrew Ingman of this place is in a critical condition and the family dog is already dead as a result of a small rattlesnake taking up its place of abode in a "rat" worn as a head adornment by a young daughter of the Ingmans.

The reptile entered the house in some unknown manner and esecrated itself in the "rat," which lay on the floor of a closet. The child picked up the head appendix and was struck on the wrist by the rattler, the fangs penetrating deeply.

The dog, which attacked the snake, was bitten and died. The child may die. The snake was killed.

THAT GAME AT THE PASS SUNDAY

Scribe in Grants Pass Paper Hands a
Bunch Out to Balltossers of
Both Teams.

Here is the dope on the Central Point-Grants Pass game as a Grants Pass scribe saw it:

Grants Pass and Central Point occupied the corral at the ball park last Sunday and the first three innings were probably the most disgusting exhibition of ball playing ever witnessed in this city. Central Point was first at bat and succeeded in getting two scores through errors. In the second inning they got two more scores on errors, but from that time on they were shut out until the eighth when they secured one more score.

Grants Pass was not able to score until the fourth inning, when they got two scores, went to zero in the fifth, scored four in the sixth, drew blanks in the seventh and eighth with the last half of the ninth to their credit.

The first three innings of the game was awful. Just think of Harvey Fabian dropping two little tip-up flies, something he was never known to do in his whole natural life, and the crowd did not spare him a bit. But this did not anger the little fellow. He knew he was careless. He simply expectorated gently into his glove and got everything else that came his way. Thrasher, who was behind the bat got hit in the chest the first inning, in the head the second inning and in the sockdoleger in the side of the third which put him out for a time, but the plucky little fellow again donned the mask and caught the rest of the game better than he did before, notwithstanding the fact that he was suffering excruciating pain all through the game. After the third inning the game was a good one all the way through, except for some costly errors on the part of Central Point, which only shows that all ball players are not perfect. Harry Smith the old war horse in left field, made a sensational catch that meant much to the Pass. It was a long run and one of the prettiest catches that has been made on the ground this season. Osburn, the alfalfa pitcher from Murphy, was just the same all through and if this kid don't get into fast company one of these days many of the fans of this city will miss their guess, and when getting the worst kind of support he never lost courage.

Central Point is a small town, but their team is not so small, and if they had a better battery they would give all the teams in the valley a tussle. They are a big husky bunch and their fielding and team work is up to the standard. They are also an amusing bunch and take everything philosophically. The third baseman should not be playing base ball, but should be in the circus in the roll of an acrobatic clown. He is surely a comic fellow and has the crowd with him all the time.

JAPANESE BETTER CHRISTIANS THAN SCORNERS, HE SAYS

DENVER, Col., May 28.—That the Japanese resident of the west is a better Christian than the one who seeks to keep him out of the schools and the country was the intimation of Dr. A. W. Halsey of New York, secretary of the board of foreign missions, in his address following the report of the board before the general assembly of the Presbyterian church this morning.

"I have received a letter this morning," said he, "from a man representing 1000 Japanese in various western states. He says that his people have raised \$3000 for the evangelizing of the Japanese and he wants the assembly to give a like amount. They are scorned, but they are Christians, and I wonder if not better than the ones who scorn them."

The report of the board indicated that there are 500,000,000 heathen in the world who have never heard of the Bible, and Dr. Howard A. Johnson of Colorado Springs suggested that for each 1000 Christians in this country to send one missionary would mean a teacher for each 25,000 heathen and this would be only equitable.

EASTERN PEACH CROP IS RUINED

California Fruit Exchange Issues a
Bulletin of Much Interest
to Growers.

An idea of the conditions of the fruit crop in other states is given in the following bulletin issued by the California Fruit Exchange:

Maryland.
From late reports we have ascertained that the peach crop in the tidewater counties of Maryland is totally destroyed, and other small fruits, with the exception of late pears, are a very small crop.

Washington and Idaho.
The latest reports covering the crops of deciduous fruit in eastern Washington and northern and central Idaho are that the crop will average about 65 per cent of normal this season, and that shipments will be about two or three weeks late on account of the cool weather they have been experiencing.

Delaware.
From reports received from this section it is indicated that the May day frost almost killed the crop of peaches except in isolated or sandy places. Just what percentage of a crop they will have it is impossible to say, as none of the fruit growers seem to be willing to give this information out.

Georgia.
The Georgia peach crop this year seems to be much shorter than predictions made heretofore might indicate. All signs point to the fact that those who have been looking for between 3000 and 4000 cars are going to be greatly disappointed, as advices from several prominent growers indicate that an estimate of from 2000 to 3000 cars is nearer in line. It has been reported that a grower at Grays, Ga., in Jones county, sold his peaches for 50c a tree, the buyer assuming all the risk of the crop from now on and pays for gathering and packing. This will give an idea of the size of the crop. It has been reported that early peaches sold for \$4.50 a box in Atlanta during the week of May 17.

Utah.
We have obtained the following report of the condition of the fruit crop in Utah during the coming season:
"Yellow free peaches and other shipping varieties 30 to 25 per cent.
"Apples, 65 per cent.
"Pears, 75 per cent.
"Sweet cherries, 15 per cent.
"Sour cherries, 65 per cent.
"Berries of all kinds about an average crop."

FORTY THIEVES CAUGHT AT CAVITE NAVY YARD

MANILA, May 28.—Having missed property of various kinds from the navy yard at Cavite for some time, the officials there decided to make a surprise search of Filipino employees leaving the yard.
Today a marine guard suddenly surrounded a gang of several hundred, among whom were 40 having various articles concealed about their persons.

It is estimated that 75 managed to throw their loot away before they were captured.

REGULATION IN REGARD TO NATIONAL HOLIDAYS

WASHINGTON, May 28.—President Taft today issued an executive order directing that when the national holidays fell on Sunday all government employees entitled to a holiday should be granted leave the Monday following. In states where the state laws provide for celebration the Saturday following preceding holidays falling on Sunday government employees will be granted leave Saturday.

TAFT MADE PRESIDENT OF UNITARIAN LAYMEN

BOSTON, May 28.—President Taft was today elected honorary president of the newly formed National League of Unitarian Laymen. The meeting of the laymen was one of the features of the anniversary observance here, which was attended by Unitarians from all parts of the United States.
