MORTALITY NECESSARY FOR PROGRESS

"Six hundred years ago there were no more cultured people, or braver people, than the leading spirits of the Ottoman Empire," says a writer in Goodwin's Weekly. "The only hope for the empire now is that the sons of alien mother may redeem the land."

"It has sunk so low that there is little honor left among men; they have become cruel beyond belief, the government corrupt beyond description, and the men in office almost all thieves and willing to do anything rather than make an honest struggle for fortune and place."

"The nations of Europe would long ago have destroyed the government except for their own jealousies and their land lust and lust for power. The Turkish nation has not been fit to live for the past one hundred and fifty years. It has been lost in every species of debauchery and cruelty and that must be the result where women are first held as playthings and then slaves. And when a company of priests reach the point where they become in reality the government, the invariable result is tyranny and degeneration."

Without morality no nation need to aspire to better things and achieve them. No nation can live and go forward unless woman is treated with the high consideration that civilization has named her due. Of this fact as the writer points out, the Turkish empire furnishes a striking example.

Other nations, aside from the Turks, who have been lax in their observance of the moral code have recanted and national degeneration as the result. The process of life is upward. If the people refuse to render to the mothers and daughters of men the homage that is due them they cannot go forward.

Different communities continue to have festivals according to the product of their surrounding country—hence Roseburg has a strawberry festival, etc., etc... Now why not a saw mill festival for Butte Falls as soon as the P. & E. is completed?

"The Devil's Whitewash Brush."

The subject at the tabernacle tonight will be "The Devil's Whitewash Brush." The adversary is an expert in the use of a whitewash brush. Come and learn how he does it. You may have had an application yourself. A great deal of whitewash is used now-a-days. The heart needs cleansing rather than a coat of whitewash applied to the outer life. Subject next Sunday morning, "Living Epistles." Sunday night, "Three Great Questions." Sunday will be a great day. Don't miss any of the services. You can't afford it.

There were four additions last night three the night before and four the preceding night. The meeting is deeply interesting to all who attend. Don't let the favor "scurvy" frighten you and keep you away from the house of God. There is no more danger in attending church than in going

MANUFACTURES BUILDING, ALASKA-YUKON-PACIFIC EXPOSITION.

On the eastern side of Geyser basin at the Alaska-Yukon-Pacific exposition the handsome Manufactures building looks across the restless waters of the cascades and the flashing foam of "Old Faithful," the reproduction of its namesake in Yellowstone National park. Its location is the most central of any of the exposition buildings, and its architectural design is especially fitting for the position it has been given. It was one of the first great exhibition palaces to be completed and before the end of last year was ready for the reception of its vast collection of exhibits from the workshops of every nation of importance in the world. It overlooks the finest of the formal gardens of the exposition, and its splendid pergolas, with their vine-covered columns and blossoming flowers, present a most beautiful and pleasing view.

We know of no more competent person to direct this department. The Professor has contracted to furnish real "stars" for all the leading parts and a good orchestra.

If we can, as we assuredly ought to have the help of the singers of the valley and surrounding country, we will have the best music ever heard in Southern Oregon or Northern California.
