

THIS IS THE LAST CALL--IT'S UP TO YOU

All odd lots in Ladies' Waists, Ladies' Suits, Wash Suits and Wash Skirts, Misses' Wash Suits, Ladies' Silk Underskirts will go on sale FRIDAY at 8 O'CLOCK at Slaughter Prices never before known in the history of Medford. These are odd lots left from the terrific UNLOADING SALE of the past week. These lines have sold well, that is the very reason they are hot lots. We intend to make this store, the remaining days of this sale, as it has been the past week—a veritable BEE HIVE, and intend to wind up this sale in a perfect blaze of glory. Look at our show windows this week, the prices marked on the articles tell the tale. Competition will stand aghast, another WALL will come forth while the public, ever QUI VIVE for bargains, will flock to our store, will rally around our banner, on which is inscribed our slogan—"THE BAKER-HUTCHASON COMPANY, OF MEDFORD, SELL IT FOR LESS."

TEACH FORESTRY IN PUBLIC SCHOOLS

Pinchot Asks Teachers of Public Schools to Co-operate With the Government.

Teachers throughout the country have been invited by the United States forester to co-operate with the forest service in an effort to obtain more definite knowledge of the characteristics of the most important forest trees of the United States. To do this it will be necessary to obtain a large number of volunteer observers who will collect material on the time of leafing, blossoming and fruiting of the various kinds of forest trees. In his letter inviting the co-operation of the teachers, Forester Pinchot says:

"Knowledge of this kind is greatly needed and will be of value from the standpoint both of education and of practical forestry. For educational purposes the results obtained for each species, averaged and presented graphically by means of colored charts, will be available to all who are interested in the subject, and particularly to schools. They will form virtual 'tree calendars,' and will be valuable aids to nature study.

"Children can readily be interested in the actual work of obtaining records. This should form an attractive outdoor feature of the school work that should serve to develop the faculty of accurate observation, and at the same time to promote an interest in forestry which may lead to a better appreciation of its aims and methods. It may also prove to be a profitable addition to botany courses for older students."

On request, the forestry service will be glad to send forms upon which to record data and a pamphlet containing full instructions as to the nature of the observations and how they are to be made.

PORTLAND WILL ENTERTAIN CHICAGO BUSINESS MEN

PORTLAND, Ore., June 10.—Representing Chicago, the greatest live wire in the business world, a special trainload of prominent business men of that city will visit Portland this week. The visitors are well known members of the Chicago Association of Commerce and represent millions of capital. Every one is a great human dynamo of energy. The excursionists have decided to quit going to Europe and to see the resources of the Pacific northwest.

The Chicago party will reach Portland on the morning of June 10. The

visitors are accompanied on the trip by a number of correspondents for the Chicago newspapers, who will write up the trip and the coast country. Complete entertainment for the visiting business men has been mapped out by the Portland Commercial club and a special committee is in charge of the arrangements. The Chicagoans will be guests of the Rose Festival, and auto rides about the city will give them a good idea of Portland.

Others are building homes through THE JACKSON COUNTY BUILDING AND LOAN ASSOCIATION. Why don't you?
