SALEM BEER

SALEM is the most popular beer in Northern California and Southern Oregon. It is acknowledged to be the equal of the very best eastern product. All beers are good, but some beers are liked better than others. The proof for this assertion lies in drinking Salem beer. If you wish to be convinced, ask for Salem beer and drink it.

MODERN GOD NOT GOD OF THE BIBLE

Chicago University Professor Again
Assails Religion as Foe
to Science.

CHICAGO, June 7.—It has come to be a question of freedom of thought, without the Church or the Church without freedom," said Prof. George B. Foster, of the Chicago University, in an address at the university today.

Prof. Foster's book, "The Function of Religion," has provoked harsh criticism in Baptist circles and the religious press and a special meeting of the Baptist Ministers' Conference has been called for Monday morning to discuss the matter.

Prof. Foster's subject for today was "Free Science and the Church." He attacked a number of the dogmas of orthodox Christianity and assailed the Church in its relation to science during 2000 years. He said that science has been as valuable as religion in promoting civilization and that the God of the Bible is not the God of the present day and generation; that the Christian religion, instead of giving freedom of thought, had continuously fettered and hampered the work of science. The Bible is not alone the source of truth, he said.

"Has faith not always bound and gagged science? Think of the state in which science exists where faith is the blind, groping belief in dogmatic principles, which are not understood, but are believed, nevertheless. It is not the Church of Rome alone which has been the menace to scientific research in the furtherance of the desire for knowledge; Protestant orthodoxy, which pretends to be partial to freedom of thought, is the greater enemy of true science, because its work is more subtle."

DR. ROCKSTOCE PASSES STATE EXAMINATIONS WITH HONOR

Dr. J. O. Rockstoce has returned from a trip to Portland, where he went to take the state dental examination, and passed with high honors, which will be gratifying to his many friends in Medford. He had practiced formerly in Pittsburg for nearly 20 years and was forced to come west on account of his health. He purchased a farm near Medford and has not decided to practice, though he has been urged to do so. In order that he might resume practice if he so wished, he took the examinations last week and passed them with exceptional honors.

ROSE FESTIVAL GREAT SUCCESS

Business Cares Religated and All
Gave Themselves Up to En-
joying Many Attractions.

PORTLAND, Ore., June 7.—Festivity has marked the past week in Portland. Business cares have been relegated and all have given themselves up to the enjoyment of the spectacles and social functions of the Rose Festival. There have been reunions and reunions, visitors from every part of the country, and conventions and gatherings of all sorts without end. What with viewing the parades, the rose show, attending various gatherings and entertaining their out of town guests, Portland people have put in a busy week and are content to rest after the six days of merry making.

When the festival closed Saturday night in a blaze of glory, it was pronounced the most successful affair of the kind ever held on the Pacific coast. The pageants of the week were magnificent and brought exclamations of surprise from eastern visitors who were unused to such gorgeous displays of floral wealth.

During the past week the Presbyterian Brotherhood convention was held in Portland, the county commissioners and judges of the state at the Commercial club, the Oregon Pioneer association held its annual reunion, officials of the Seattle fair visited the festival, Scottish Rite Masons held a reunion and initiation, Chicago business men came to the festival by special train and were entertained by the Commercial club and Rose Festival, Admiral Ijichi and his staff of Japanese naval officers were festival guests, French Ambassador Jusserand was a festival visitor, besides innumerable less important happenings during the week marked a period of unusual activity. Besides there were thousands of out of town visitors from all over the country.

MANY MOVING PICTURE SHOWS AT EXPOSITION

SEATTLE, June 7.—Moving picture shows are used extensively as educational features at the Alaska-Yukon-Pacific Exposition. Not only has the government fitted up a biograph hall where daily lectures with moving pictures are given by experts in the different branches, but each state has done likewise and in fact nearly every building has an illustrated lecture. No charge is made, and an instructive and interesting form of rest is furnished.

Here's a Tip

Guess you know what's good, and never miss a treat? Guess "she" knows as much; also how to get it?

Sometimes quarrels will happen. Oh, my! It was her fault, of course, and still it's up to you.

Kicking's no use; besides, Joe can help you. He has the stuff to make her smile—that Special Fruit Melange. It's ice cream, you know, but something extra good. Same with his Orange and Grape Sherbet.

And his candy—so pure and sweet—she'll never resist that.

Last, not least—ice cream in any quantities and flavors for that evening party.

Rone's Candy Shop

This Home Built Here

No more to be built like it. Let us plan you a real Spanish home of the Sunny South, or a Swiss Chateau.
