

MEDFORD DAILY TRIBUNE

FOURTH YEAR.

MEDFORD, OREGON, THURSDAY, JUNE 24, 1909.

NO. 83.

AUTO RIDE WAS EFFECTIVE BIT OF PROMOTION

Rufus P. Jennings Writes President Colvig of the Commercial Club Thanking Local People for Ride Through Valley.

SAYS MANY WILL RETURN TO SEEK INVESTMENT HERE

Enterprise of the People of Medford Was Matter of General Comment by Californians.

That the automobile ride tendered the members of the California excursion by the Commercial club was a most effective bit of boosting, is attested by the following letter received by President Colvig of the club from Rufus P. Jennings, chairman of the California promotion committee:

"Mr. William M. Colvig, President Commercial Club, Medford, Ore.— My Dear Mr. Colvig: The enterprise of the people of Medford, through the Medford Commercial club, was a matter of general comment by the members of our party during the last day of their trip homeward from the Alaska-Yukon-Pacific exposition. "I am directed by the 100 Californians to thank you and through you the members of your club and the people of Medford, for the splendid reception accorded them at Medford, and for the most delightful and instructive automobile drive through the Rogue River valley to your neighbor city, Ashland. The address you made from the summit telling us of the wonderful productiveness of your valley made a deep impression on the members of our party, and I am sure that many of them and their friends will go up seeking investment here.

"Again thanking you, Mr. Owell and the others who contributed toward making our visit with you so delightful in every way, I am, cordially yours,

"RUFUS P. JENNINGS, "Chairman."

SENATOR BAILEY SCORES TRUSTS IN FIERY SPEECH

WASHINGTON, June 24.— Denouncing the doctrine of free admission to this country of raw material, Senator Bailey, in the senate today, made a savage attack upon the trusts asserting that the only means of destroying them is to send their organizers and operators to the penitentiary.

"The doctrine of free raw material is unjust and undemocratic," he declared. "Instead of being the policy of the Democratic party, it was never accepted until 1886, when the tariff was removed from raw material. It makes it necessary to increase the tariff on other materials in order to raise revenues.

"If I was attorney general I would sue to dissolve the United States Steel corporation."

BANKERS BEGIN SESSIONS IN CITY OF SEATTLE

SEATTLE, June 24.—The Tri-State Bankers' convention was called to order in the Masonic theater this morning. Nearly 600 delegates from Washington, Oregon and Idaho are present. This is the first time a joint session has been held since 1905. Today's session will end with an address on "The Pacific Northwest From an Eastern Standpoint," by J. F. Allen of New York City.

INVITATIONS ISSUED FOR BIG SHOOT

Book of Pacific Indians, Crack Marksmen of the West, Issued Calling the Tribe to Meet in Medford.

CONTAINS SPLENDID MEDFORD ADVERTISEMENT

Edition of Program Is Over 3000 and Will Go to the Best Trap Shooters in America.

The book of the "Pacific Indians," crack marksmen of the west, compiled by Frank C. Reihl, herald, by authority of the Tribe, containing the constitution of the order, photographs of the members, all of whom bind themselves to appear at the annual shoot held on Sept. 7-8-9 at Medford, is out. It is a most attractive pamphlet, a credit to the order, and one of the best advertisements of Medford yet issued. The edition is 3000, and all go to the crack marksmen of America, among whom Medford is a favorite meeting place.

On the back of the pamphlet appears the only advertisement in it as follows:

"Medford the Beautiful," Home of the Red and Yellow Apples— In the Land of Milk and Honey Where Nature Smiles and Men are Glad

—And Life is Worth the Living— Come stranger and for yourself see Sunny Southern Oregon or write Medford Commercial Club."

The order was organized last year at the Medford shooting tourney, held in August.

The native language or jargon of the Chinook tribe of Indians, which was most widely used among the native tribes on the Northwest Coast, the official source and basis for tribal names, designations and native vernacular as may be used within the organization.

The object of the organization is set forth as of good-fellowship among its members and with the world at large; promoting true sportsmanship as directed toward a and the conversation of the natural game and fish resources of the territory which it represents; and to this end holding fixed tournaments at intervals not exceeding twelve months apart, and taking an active interest in all matters pertaining to the craft within the scope of this declaration.

The officers of the Indians are: Tye Saelem, Maurice Abrahams, Portland, Ore.; Makst Tye Saelem, Ed C. Garratt, Seattle, Wash.; Klone Tye Saelem, Jesse E. Eayart, Medford, Ore.; Tye Tsum Chickamau, Herald Custodian, Frank C. Reihl, Tacoma, Wash.

Tilikum Wawa, Chief Advisor; E. E. Ellis, Seattle, Wash.; C. A. Haight, San Francisco, Cal.; W. E. Carlon, Portland, Ore.; P. J. Hololan, Twin Falls, Ida.; J. T. Hills, Vancouver, B. C.; K. I. Hari Tucson, Ariz.

Elip Kol Kokuinel Miamosse Ilihe Kolla kula, first annual gathering and slaughter of clay birds, to be held at Medford, Oregon, September 7-8-9, 1909.

Open to the World

The call of the Tye Saelem, given on the preceding page, is hereby confirmed.

The Pacific Indians this summer their first great annual convolve, and extend a most cordial invitation to all lovers of the sport of shooting at the traps, to join them on this occasion.

The tournament will be open to the world, and is duly registered by the

WASHINGTON SOLONS TIRE OF NEW LAWS

During Special Session Bills Will Be Introduced to Repeal Several Laws Passed During the Recent Session.

ANTI-CIGARETTE LAW MEETS WITH DISFAVOR

Working Under Theory That Rules Adopted Were to Blame—Insurgents' Caucus.

OLYMPIA, June 24.—Working under the theory that because organization was defeated by proceeding under the rules adopted at the last regular session of the legislature, the members of the caucus have decided to rectify matters this session. The insurgents held a caucus late last night and decided to introduce a bill and attempt to repeal several laws passed during the last session. The anti-cigarette law, which raised a storm of protest, is one of the bills against which an attempt will be made to change it.

BIG MEETING IS SOON TO BE HELD IN BURNS

SALEM, June 24.—Within a few days delegations will leave for Burns, Oregon, where a meeting of the Oregon-Idaho Development congress is to be held on July 1, 2 and 3. Delegates from Weiser in Northern Idaho with a proposition to have the proposed railroad extended to the Coeur d'Alene mining district, will be on hand. Two days will be devoted to discussing reports on the Coos bay railroad project.

MARRIAGE LICENSE LAW A TERROR TO GROOMS

NORTH YAKIMA, Wash., June 23.—On the assumption that marriage licenses were good until used, a number of young men with matrimonial intentions, more or less defined, took out licenses before the new marriage law went into effect. They find themselves no better off than before, however, for while the licenses are all right, the law requires elegancy and justices performing the ceremony to ask for physicians' certificates with a penalty of \$1000 for violation of this provision. Ministers here, accordingly, while deprecating the exodus of would-be brides and grooms to Oregon and British Columbia cities, are obliged to refuse to officiate on these previously obtained licenses.

STANDING OF CONTESTANTS IN THE CONTEST

Remember, you can take the trip any time you choose, and that all subscriptions carry votes.

Contestants are not limited to the districts in which they are entered, but are allowed to secure votes from any other district, county or state.

CONTEST CLOSES JULY 17, 1909.

REDDY WILL SUE RECEIVER FOR AN ACCOUNTING

Soon to Start Second Suit to Force Public Accounting of All Transactions Regarding the Failed Bank.

SERIOUS CHARGES MADE BY REDDY AGAINST DEVLIN

Local Man Believes Such an Investigation Will Unearth Gross Mismanagement.

Receiver J. F. Reddy of the Medford & Crater Lake railroad has begun suit against Receiver T. C. Devlin of the failed Oregon Trust & Savings bank and the German-American bank of Portland, to establish the validity of \$81,500 certificates of deposit, the proceeds of the sale of the railroad, and is preparing papers for a second suit to compel Receiver Devlin and the banks to make a public accounting of all transactions made in closing up the failed institution and disposing of its assets.

Serious charges are made by Dr. Reddy against Receiver Devlin and the German-American bank, who is convinced that public investigation will unearth gross mismanagement and justify the removal of Devlin as receiver.

"To begin with," stated Dr. Reddy, "when the German-American bank assumed the liabilities of the Oregon Trust, the directors agreed to increase the capital stock to \$400,000, by putting in \$112,000 more. Instead of this, they have decreased the capital stock to \$200,000, which alone arouses suspicion.

"The disposal of the Board of Trade building, the Golden Eagle department store, the Storey building and other assets of the failed bank will be publicly probed, and if there was a loss to the creditors, it will be brought out.

"I am convinced that Mr. Devlin is the wrong man to handle the bank's assets. His attorney is also attorney for the other banks of Portland, and should never have had a voice in disposing of a rival institution's assets. Mr. Devlin has repeatedly promised me things and then repudiated them."

GRAND LAKE, Colo., June 24.—William Jennings Bryan Jr. and Miss Helen Berger of Milwaukee were married here today. Only the immediate relatives were present.

TESTIMONY IS REPLETE WITH ROAD BENEFITS

Crater Lake Road Case Brought Out Many Interesting Facts in Connection With the Natural Wonder.

SHOWS BENEFITS OF THE ROAD TO ENTIRE STATE

Prominent Men From All Sections United in Telling of Advantages Which Would Result.

In the evidence taken in the Crater lake road case many interesting features were brought out by prominent men from various localities, whose testimony showed that the construction of the road was not a local affair, but a state affair and beneficial not only to the people of Oregon but to the people of the United States.

Judge John Scott, for eight years county judge of Marion county and a well known good roads advocate made the following assertions:

Help to Farmer

"The proposed Crater lake highway will be a great benefactor to the state of Oregon. It will connect the Willamette valley with the Southern parts of the state and with the great territory lying east of the Cascades, and the result to the general welfare of the United States. It will draw thousands of tourists to Oregon each year, and the people throughout the state will derive great benefit from it. It would be a drawing card to tourist traffic, and after tourists once get into the state they will go through to other parts. They will see the many resources we have, invest money and help develop Oregon. It will attract people to develop our dormant enterprises. They are a class of people that have money and spend money.

"Hotel keepers and transportation companies would not be the only beneficiaries. The people they are drawing from in the country must be benefited. It goes right back to the farmer, who gets to supply them and he will realize that much more for his produce."

Tourist Transportation

William McMurray, General Passenger Agent of the S. P., testifies as follows:

"It is the experience of all transportation companies that no one thing will do more to bring a state or region to the favorable notice of the world than a great scenic wonder. Take for example Yosemite valley in California. Thousands of people visit that valley annually who are attracted there originally and primarily by the Yosemite, who otherwise would not go, and the class of people attracted there are those who have means of travel, and they spend their money freely and their pilgrimages become a source of prosperity to the states in which and through which they travel.

"But the prime consideration in all circumstances is desirability, and it is becoming more and more so all over the world in proportion to the degree of easy transportation. Many wonderful scenes difficult of access, are simply stricken from the list of world-famous hardships. When a fine turnpike was built into the Yosemite, travel thereto was multiplied a thousand fold. Now that a railroad has been constructed to its very threshold, it is difficult at times to afford accommodation for the crowds that apply.

Circuit Judge H. K. Hanna and Attorney A. E. Reames are on a fish

OREGON LINES OF S. P. MAY ABANDON OIL

Are to Use Coal Instead, Which Will Make a Home Market for Product of Adjacent Country.

INCREASE IN PRICE OF OIL PROBABLE CAUSE

Rapid Development Work Is Being Done on the Local Mines—Working Day and Night.

That the Southern Pacific will abandon oil for coal on its Oregon lines, is stated in a letter received this morning from an engineer in the employ of the state railroad commission. This will make a home market for Medford coal, as it is the only fuel possible to get at a nominal figure. The diminishing output of the California wells and the constantly increasing price of crude oil are the probable causes of the change.

Rapid development work is being done on the Cascade, Sunnyside and Western mines near Medford. Day and night shifts are busy driving tunnels, which will be extended a distance of 1000 feet each. At the Sunnyside, the old tunnel, started years ago and driven 300 feet by the Southern Pacific, has been timbered and is being extended. At the Western, a boiler is being placed and preparations made for a double track tunnel.

At all the mines the quality of coal is improving with each foot of tunnel, and there never was any doubt of the quantity, the vein being 12 feet thick and extending for miles.

COLONIZATION AGENT VISITS KLAMATH FALLS

KLAMATH FALLS, June 24.—J. C. Waste, colonization agent for the settlement, coming in the city from Chicago, where he has his headquarters. Mr. Waste is visiting the reclamation projects of the west and is very much impressed with the conditions here. He will make a thorough investigation of every section of the project while here, so as to become perfectly acquainted with the conditions.

Mr. Waste states that he is receiving thousands of inquiries from homeseekers about the different government projects, and that he will be able to send a large number of farmers to this country during the summer. After his visit, he will be better able to know the class of people most needed here, and he is of the opinion that people from the Middle West would be better satisfied with this section than those of the southern states or farther east.

Savoy Theater.

Tonight, "The Hunter's Girl," "Dime Novel Dan," "False Accusation." The above is the program at Medford's popular moving picture theater. Each one of the pictures is the best of its kind in the film market today. All the stories are strong, clear in every detail. The photography is superb and acting consistent. Thus the entertainment is one that could not be improved upon, and one that all interested in good, clean, up-to-date moving pictures should not miss. The Savoy has good ventilation and is the coolest place in town. Entire change of program Friday night.
