## JAPANESE IN STATES ON THE INCREASE

Asiatic Exclusion League Shows Number Is Not Diminishing as Reported.

SAN FRANCISCO, June 25.—Secretary Yee, at the meeting of the Asiatic Exclusion League recently, read the report of the executive board. Since the last session some of the persons employing Asiatics had dismissed them in favor of whites. Difficultly was experienced however, in securing reliable white help in restaurant, domestic, and saloon service.

"Recent advices from Los Angeles," the report continues, "confirms the reports of your committee as to the numbers of Japanese in this state. Police investigation in Los Angeles and vicinity have determined that there are 20,000 Japanese in that city and the surrounding country; that information is in line with the investigations of the Los Angeles Examiner, which recently declared (1908) that there were 30,000 Japanese south of Tehachapi.

"It is being constantly published in the press, from statements furnished by the Japanese authorities, that the number of Japanese in the United States is so rapidly diminishing that the evil of their presence is reduced to a minimum and consequently there is no cause for apprehension.

"We call attention to the fact, as ascertained from the monthly reports of the Bureau of Immigration, that there was no diminution in the numbers of Japanese in the United States during 1908, but on the contrary, from January to December, 1908, both months inclusive, there was a net increase of 3414 Japanese; while for the fiscal year, 1908, ending June 30 of that year, there was a net increase of 11,095. From the first of July, 1908, to February 28, 1909, the arrivals of Japanese were 2,595, and the departures 2,691, a net increase of 186."
