### ROSEBURG'S STREETS TO BE WELL LIGHTED

ROSEBURG, Ore., July 2.—Roseburg is going to have her business streets lighted in an up-to-date manner hereafter, according to the plans now being carried out by the Commercial club. There will be 68 ornamental lamp posts, each containing five opalescent globes, one to be 16-candlepower. The posts are to be placed on the curbing and there will

be three or four to the block. Each post is to be donated by some resident, lodge or club of this city and is to have the name of the donor inscribed upon it on a brass plate. The street paving is well under way and it is the intention of the club to place the posts before it is finished so that the wires can be placed underground. Eighteen blocks are being paved, but it is the intention of the club to light only nine blocks in this manner for the present.
