## WOULD PUT TAX ON ALL FIRE ARMS

Congressman Suggests New Law to Regulate Use of Guns and Still-ettes Throughout States.

WASHINGTON, July 31.—A new source of government revenue has been devised by Representative Sisson of Mississippi, and he feels confident that its adoption would bring millions into the treasury. He believes also that it would add materially to the average length of human life in this country. His scheme is to levy a tax of \$2 and 25 per cent ad valorem on every revolver, dirk, still-etto, bowie knife or pair of metal knuckles manufactured in or imported into this country. He proposes that there be a tax of one-tenth to one-fifth a cent each on cartridges according to size. All of which is covered by a bill introduced by Sisson and now pending in congress.

"I estimate," he says, "that the tax on weapons would produce about \$1,500,000 and on cartridges \$500,000 a year."  
"There is no use for a pistol or still-etto but to kill. Those who use them cause the government much expense, and there is no reason why they should not contribute to the treasury, tobacco, whisky and cards are subject to taxation, and it would be well enough to add an assessment on the owners of deadly weapons. It would be better to tax pistols and not plows, cartridges and not corn planters."

#### The Dogs of Turkey.

In the matter of kindness to animals it is said that the Turk cannot be surpassed. Thus at Stambul the wandering dogs are treated with great gentleness, and when puppies come into the world they are lodged with their mother at the side of the street in improvised kennels made out of old boxes lined with straw and bits of carpet. And frequently when a young Turk happens to be flush of money he goes to the nearest baker's shop and buys a quantity of bread, which he distributes among the dogs of the quarter, who testify their gratitude by jumping up at him with muddy paws and sniffling muzzles.
