CALIFORNIA PEARS NEARLY ALL GONE

Sacramento River Section Furnishes Shipments—Next Two Weeks Ends the Season.

The California Fruit Distributors, of Sacramento, issue the following letter undated date of August 3:

To the Trade.—The following gives number of cars of deciduous fruit shipped to all points by all members of this company for the week (7 days) ending Monday night, August 2nd, 1909.

Plums and Prunes—120 cars. Plums will continue in fairly good supply for the next ten days or two weeks. Shipments, however, will probably grow lighter from day to day until the close of the season. Shipments now consists almost entirely of Diamond, Grand Duke, Grand and Gros Prunes.

Peaches—424 cars. Peaches are now going forward in liberal quantities and will continue to do so until the 15th of August, after which time we expect shipments to drop to very small proportions. Fruit now going forward is of better quality than any that had been shipped so far this year. Early peaches have been a disappointment to us, as the quality was not nearly as good as we had expected. Later fruit will be found much more satisfactory and we feel sure will be acceptable to the trade.

Pears—460 cars. Sacramento River has practically finished its shipments, but a good many cars will go forward daily from other sections during the coming week. Pears will be practically done within the next two weeks. Quality of fruit continues fine and is giving almost universal satisfaction.

Grapes—46 cars. Grapes are being shipped in quite liberal quantities, consisting principally of Thompson's Seedless, although some Malagas are now going forward. Rose De Peru and Tokays are increasing in receipt from the earlier districts and after next week there should be reasonable quantities of both varieties available for shipment.

Car Famine—We have had plenty of cars available for shipment the latter part of the week and in consequence shipments have been very heavy. It is necessary to use each day the cars arriving the day before as there is absolutely no surplus. As long as receipts counterbalance shipments we expect no further trouble, but at any time that is not true, our troubles begin afresh. It is hoped, however, we will get through the remainder of the season without any serious trouble of this kind.

Weather conditions remain favorable.

FRUIT SHIPMENTS HEAVIER THIS YEAR

Prices Received Yesterday Were Generally Higher for California Fruit.

From advices received today, it is shown that prices for California fruit in eastern markets Wednesday were generally high, considering the great amounts of fruit which have been sold in the East in the last few days. What has kept the prices up has been the shipping of fruit by the distributors into many of the smaller cities of the East, thus relieving the pressure in the large markets and keeping the demand keen everywhere.

Including the shipment East yesterday of 114 cars of California fruit, the total shipments for the season amount to 4443 cars. Up to the same date last year the shipments were 3634 cars, indicating that the shipments this year are 809 cars in excess of those of 1908.

Prices received by the Fruit Exchange were as follows:
