**THE PILLORY.**

**An English Writer's Reflections Upon Public Punishment.**

Perhaps one of the few really democratic institutions ever created was the pillory. I do not say that it was a humane institution, though it was certainly more humane than our system of silent imprisonment. But being humane has nothing to do with being democratic. You may have humane and inhumane democracies, just as you may have humane and inhumane despots.

The point is that the pillory was a real appeal to the people, if it was cruel it was because the people were cruel or perhaps justly indignant. The people threw dead cats (the less humanitarian, I believe, threw live cats), but they could throw bouquets and crowns of laurel if they liked. Sometimes they did. The argument about the old public punishments cuts both ways. The publicity was an additional risk for the government as well as an additional risk for the prisoner, and this is specially true of the executions for treason. It was no small thing that half a million men might possibly treat

as a martyr a man whom the king was treating as a murderer, that the prince had to concede to every obscure ruffian exactly what that ruffian probably wanted most—fame.—G. K. Chesterton in London News.

**THE KANGAROO.**

**Its Hind Legs Are a Most Formidable Pair of Weapons.**

The kangaroo seems poorly provided by nature with offensive weapons. His powers of biting are not formidable, and his fore paws are so weak as to seem almost rudimentary members of little use. His hind legs are muscular and strong, but are apparently of use only to assist flight from his enemies. On these hind legs is found, however, a most formidable weapon in the shape of a long claw as hard as steel and sharp as a chisel—as terrible to dogs as the scythe chariots of the ancients were to their enemies. When run down the kangaroo, placing a tree behind him to protect his rear, will seize in his fore paws such indolent dogs as rush up to him and, holding them firmly, disembowel them with a sweep of his sickle-like

claws. Even the hunters themselves thus caught in the viselike grip of an "old man" kangaroo of the larger breeds have sometimes suffered in the manner and have now and then taken their own term at being hunted as the enraged animals turned upon them and attacked their horses with blind ferocity.—St. James' Gazette.

**The Colossus of Rhodes.**

The gigantic Colossus of Rhodes was one of the seven wonders of the world. It was erected in honor of the sun by Charis of Lindus, a disciple of Lysippus, and was thrown down by an earthquake about 224 B. C. The figure stood upon two moles, a leg extended on each side of the harbor. A winding staircase led to the top of the figure, from out of the eyes of which were visible the coast of Syria and the ships sailing on the coast of Egypt. The colossal were the peculiar characteristic of eastern art and were of common occurrence, many of them being over sixty feet in height. The most celebrated is the statue of Memnos, on the plain of Thebes, described by the historian Strabo.

Mr. and Mrs. Edgar Hafer, Miss Florence Kenteld, of San Francisco, who is visiting them, H. S. Dudley, Dr. and Mrs. Dudley, returned Thursday from a hunting and camping trip in the Mt. McLoughlin country. Mr. Dudley secured a deer.

**FOR SALE—AUGUST ONLY**

**A SUMMER RESORT ON KLAMATH LAKE That is Unsurpassed in America**

This is a sporting proposition for men of wealth—it is not a farm. Unequaled Trout Fishing—June to November. Deer Hunting on the premises, August 1 to November 1. Duck Shooting superior to any in the state, over thousands of acres of wild celery and rice, September 1 to February 1. Grouse and Pheasant Shooting on the place October 15 to November 15. Best starting place in the county for a Bear hunt. The Crater Lake Automobile road will run through the place for a mile and a quarter. Navigable water to the property, unsurpassed drinking water, and power to develop the property. More bottom land and fine garden land than any place on the lake. Thousands of Pine and Fir trees and thousands of Quaking Aspens. More varieties of wild flowers and natural grasses and vetches than any place in the county. If you develop this property as it can be developed, there is no resort in the county that can compare with it. No amount of talking will describe it—let us show you. We have been offered more than twice what it cost, but have a price at which you may take it—below which we will keep it. J. G. PIERCE, W. T. SHIVE, Klamath Falls, Oregon.
