Attention, Pioneers.

The 33d annual reunion of the Pioneer society of Southern Oregon will be held at Ashland, Or., on Thursday, the 26th day of August, 1909. We hope to have the pleasure of greeting you on that occasion, together with your family and friends. It is desirable that the annual reunions of the society be perpetuated. Professor B. F. Mulkey has agreed to deliver the address to the pioneers and their friends at that time. Come and bring your badges with you. Respectfully yours,
* SILAS J. DAY, Secretary.

DISCOVERY OF OIL EXCITES KENNETT

KENNETT, Aug. 6.—There is great excitement here today over the discovery of crude petroleum half a mile below Kennett, between the river and the railroad. The crude oil was found exuding from a crevice in the rock, where the soil was washed away last winter.

The discovery was made by Harry Davis, a prospector; William Stryker, an electrician and Tony Crouch. They located half a section of land as quartz claims. These three have taken in Richard Golinsky, Judge Ralph Brown, Bernard Golinsky, Jr., Robert I. Sikes and W. D. Tillotson, and they have located a quarter section under the name of the Flora V. petroleum and placer mining claims.

They will do some surface prospecting immediately, and if this is satisfactory drilling will commence in a short time.

Judge Brown has a quart bottle of oil from the seam and it is being viewed with great interest.

COTTAGE GROVE DECIDES TO PAVE STREETS

COTTAGE GROVE, Or., Aug. 6.—At the council meeting last night it was decided to pave Main street from the Southern Pacific depot to the bridge crossing the Coast Fork river, a distance of about six blocks, and concrete walks will be laid on this street. As soon as possible bids will be asked and the work rushed to completion.

More substantial street work has been done this year than ever before in the history of Cottage Grove. With an inexhaustible supply of first-class stone for all kinds of street and building purposes, it will soon rank second to none of the cities on the Pacific coast for fine streets. More modern, commodious brick blocks have been erected and are under construction during the last 18 months than any city of its size on the Coast.

FEDERATION OF MINERS MOVES FOR BETTER LAWS

DENVER, Aug. 6.—The Western Federation of miners today concluded its annual convention with the selection of Denver as the next place of meeting.

Resolutions were adopted instructing the officers and the executive board to secure the enactment of a law in all states making six hours a day's work in the mines where the temperature is above 90 degrees, and declaring that an eight-hour day shall embrace the time from entering the mine until the worker is again delivered at its portal. This last resolution pertains to the controversy in the California mines.

The following officers were elected: President, Charles H. Moyer, Denver; vice-president, C. E. Mahoney, Butte; secretary-treasurer, Ernest Mills, Denver.

HARRIMAN SAID TO BE BACKING SUTTON FAMILY

ANNAPOLIS, Md., Aug. 6.—That their appeal to the Taft administration for a reopening of the Sutton case was granted so quickly, after a fight over a year while Roosevelt was in the White House had been unavailing, showed that the Suttons had influence in high places.

Now comes the apparently reliable statement that E. H. Harriman is backing their fight not only morally, but financially as well. Sutton, father of the dead marine officer, is the division superintendent of one of Harriman's western roads, and the two are close personal as well as business friends.

This is said to account for Harriman's interest in the case and his material aid.

HARRIMAN'S HEALTH SAID TO BE MUCH IMPROVED

NEW YORK, Aug. 6.—Private cable advices received here today state that E. H. Harriman's health is greatly improved and his condition is better than for several years. It was learned that, barring a change in his present plans, Harriman will reach here from his trip abroad about September 10.

CHINESE WOULD BAR JAPANESE LAND OWNERS

TOKYO, Aug. 6.—The greatest stumbling block in the way of an amicable settlement between China and Japan of the differences over the Antung-Makden railway is the order issued by the Chinese authorities that no land should be sold to Japanese along the line, under severe penalty.

This and several other questions concerning Japanese policy in China will be determined in a short time, it is expected, as the whole matter was placed in the hands of the emperor yesterday by Foreign Minister Komura.

One of the principal points at issue since the opening of the Chien Tao boundary dispute between China, Japan and Russia has been the question of railroad extension and establishment of independent municipalities along the rights of way of the various lines on the Liao Tung peninsula.

SALEM BEER

SALEM is the most popular beer in Northern California and Southern Oregon. It is acknowledged to be the equal of the very best eastern product. All beers are good, but some beers are liked better than others. The proof for this assertion lies in drinking Salem beer. If you wish to be convinced, ask for Salem beer and drink it.
