The A B C of Gasoline Engines

Alamos gasoline engines belong at the head of the list in engines as much as A belongs at the head of the alphabet.

Because wherever they have been demonstrated they have taken the first prizes absolutely on their merits.

Can you afford to use any but the best grade of gasoline engines for irrigation or other purposes?

The Alamo engine has been selected by the State University at Eugene, and also by the Oregon Agricultural College at Corvallis, as the best engine adapted to demonstrate the latest and most approved principles of gas engine practice to the students. Our 3-h.p. Alamo Victor vertical electric lighting outfit was selected by the Southern Pacific Company to light the demonstration train which toured the Willamette valley last fall under the direction of the Agricultural College, and these people were so well pleased with the Alamo engine that it was again selected by them to light the demonstration train which recently toured Southern Oregon. The Westinghouse Electric Company and the Northern Electric Company, which as you know are the two largest manufacturers of electrical goods in America, have both adopted the Alamo gasoline engine, and now recommend them and illustrate them in their bulletins. A complete stock of engines, together with a full line of extra parts, is always available at Portland. If you will inform us concerning the exact use for which you wish the engine, we will be pleased to furnish you gratis what information we can concerning the necessary horse power. We have had a great deal of experience in making installations of all sizes, and no doubt can be of some assistance to you.
