ELECTRIC CAR LINE FOR KLAMATH FALLS

Old System Is to Be Electrified Throughout and Modern System Installed.

KLAMATH FALLS, Or., August 7.—Within the next 30 days work will be commenced transforming the present street car system into an electric line. This is the welcome message that has been given out by E. R. Reames, president of the Klamath Falls Land and Transportation company.

"For the last several weeks we have been hard at work on the plans and specifications necessary for the carrying on of the work of changing our present line to an electric system," said Mr. Reames today. "Our company has made certain promises to the people of this city, and we are going to carry them out. We now have bids for the rebuilding of the line, and within 30 days a force of men will be busy with the work. Mr. Brown will be here the first of the week, when the finishing touches will be applied to our plans, and we will then be in a position to make a definite announcement as to when the service will be inaugurated."

Mr. R. A. Holmes, City.

Dear Sir:—If a recommendation from a customer would be of any value in your office, allow me to express my appreciation of the manner in which my recent loss by fire was adjusted, by yourself and the representatives of the various companies with whom I held insurance.

An adjustment of 100 cents on the dollar for the amount insured, and check covering the above amount within four days after the final adjustment was the result, notwithstanding the fact that a clause allowing 60 days for final adjustment was attached and made a part of each policy I held.

In my estimation the foregoing speaks well for the companies you represent and their methods of procedure, which are the vital points to be considered by the insured.

Thanking you for the personal interest in my behalf, I remain,
 Respectfully yours,
