TO SPLIT NATION IN FOUR PARTS

Georgia Populist Says New England Made Laws Are Forcing Quadruple Secession.

ATLANTA, Aug. 18.—In denouncing the Aldrich-Payne tariff bill and in answer to the Memorial day speech of Secretary of War Dickinson, Tom Watson, former candidate for president on the populist ticket, suggests the reconstruction of the Union into four grand divisions, declaring the hemisphere will be all the happier for it.

His reply was called forth by the statement of Mr. Dickinson at Gettysburg that "there are in the south but few, if any, who would not turn swiftly with sentiments of abhorrence from any suggestion that it would be better for the south if it had succeeded in establishing an independent government."

After denouncing this assertion and charging that Mr. Dickinson did not believe what he said and that the northern people knew he did not speak the truth, Mr. Watson said:

"I am quite sincere in saying it would have been better for the south had the confederacy succeeded. We would have had no constant irritant, such as we now have in the social-equality blacks, in office holding coons and the niggerite white people of the north who are eternally putting the devil into the heads of the Afro-Americans. The western states would be better off in a separate state of their own. It will come some day. With just such laws as Aldrich and Lodge and Gallinger and Hale—all of New England—are forcing through congress the Union will be split into four grand divisions and this hemisphere will be all the happier for it."

HENEY NOMINATED BY THE DEMOCRATS

Prosecutor Successful in Landing the Nomination for District Attorney at Primary.

SAN FRANCISCO, Aug. 18.—Incomplete returns from the first primary election ever held in the city, yesterday show that the regular organizations both democratic and republican parties won. A peculiar contest for the district attorney has developed that Charles H. Fickert won the republican and Francis J. Heney the democratic nominations. The nominees for mayor are William Crocker, republican, and Dr. T. W. Leland, democrat; P. H. McCarthy, union labor, and W. McDevitt, socialist. Later returns show that Heney's nomination is in doubt, but the chances favor his nomination.

PAVING WORK STARTED ON WEST MAIN STREET

A grading crew has begun work to put West Main street in shape for bitulithic pavement. Over a mile of Main street was paved last spring, and this extension will carry the pavement to the west limits of the city, three-quarters of a mile. With this section completed, Medford will have about three miles of hard-surface streets, and there is a possibility that at least a mile more may be put down this fall on Central avenue and on West Tenth street. It has been definitely agreed to by the interested property owners that East Main street is to be paved next spring. The work would be done this fall, but the sewer system for that part of the city is not all complete. There will be about a mile of this section of Main street, extending from the present paving at the crossing of Riverside avenue to the city limits.

RENEWAL OF WORK AT THE BLUE LEDGE

Order for Carload of Blacksmith Coal Indicates Early Resumption of Operations.

A. T. Lundgren, the Blue Ledge miner, is spending a few days in Medford and reports that assessment work is being done on nearly all the claims in the district.

"The fact that the Blue Ledge mine has just ordered a car of blacksmith's coal indicates that a renewal of work on a large scale is expected in the near future," states Mr. Lundgren. "At present a small force is employed, but there is every indication of a resumption of extensive operations."

"It is inconceivable that the owners will let the mine remain idle long with a million and a half already invested and several million dollars' worth of ore on the dump. It would not surprise us to hear that the erection of a smelter is in prospect in the near future."

THE STEAMER ELDER SINKS DANIEL KERN

Rams River Boat in Columbia With a Crash That Is Heard for Miles—None Injured.

ASTORIA, Or., Aug. 18.—With a crash that could be heard nearly a mile, the steamer George W. Elder struck and almost immediately sank the steamer Daniel Kern near Waterford lights, Columbia river, 30 miles from here, today. A score of passengers on the Elder were thrown into a panic and interfered with the Elder's crew going to the rescue of men from the sinking Kern. They rushed to the side, where the Elder had a gash in the bow above the water line, careening the Elder so that she filled slightly and was in danger of following the Kern to the bottom. The officers drove the passengers back and the men rescued the Kern crew with small boats. None were injured. The Kern is lying in 50 feet of water, her top masts showing. The Elder is here for repairs.

HOTEL ARRIVALS.

Dennis and wife, Crookston; Chris Kohn, Grants Pass; Laurence Rhodes, city.

TOO LATE TO CLASSIFY.

TO RENT—Two furnished house-keeping rooms, first floor front, \$3.50 per week. Inquire Tribune office.

FRUIT PROSPECTS ASHLAND DISTRICT

Berries Practically Closed Out, With Larger Varieties Now Shipping.

Headquarters of the Ashland Fruit and Produce association begin to take on the customary busy appearance at this season of the year, says the Tidings. Good prices prevail, and there have been abundant receipts and shipments of plums, apples, berries, nectarines, early peaches, etc. Berries have brought in the neighborhood of \$1 per crate, which is a notable advance on prevailing returns for small fruits.

This week peaches in ear lots will begin to move, followed by near "direct line of succession." The yield this season promises to be generous and of fine quality, and a scarcity in many other localities—especially of peaches—will create a demand for the luscious fruit which has made the name of Ashland famous.

Manager Linger of the association has able lieutenants in the persons of Secretary Riste and George Bassett, and all matters incident to receipts and shipments are expedited in a manner gratifying to the patrons of the corporation, which they represent.

Walla-Walla figure in the forwarding movement to the usual extent and the daily shipments by express assume normal proportions at this season of the year.

Quite a lot of the product is finding its way over to Klamath, but not to the extent of former years, owing to the fact of railway congestions having been established with that section. However, several freighters continue to engage in the business, and report fair returns on the investment.

According to reports from Portland markets, peaches easily hold first place in the fruit displays there, and for the first time this season the fancy California Crawford and Elbertas have a real rival in local fruit. Oregon Crawford have arrived in a small way as yet, but the best of them in quality and appearance are fully equal to, if not superior to, the peaches from farther south. Next week there will be plenty of Crawford forwarded from the Ashland and Roseburg districts, and from that time on the California peach will have to take second place.

FOR SALE—AUGUST ONLY

A SUMMER RESORT ON KLAMATH LAKE

That is Unsurpassed in America

This is a sporting proposition for men of wealth—it is not a farm. Unequaled Trout Fishing—June to November.

Deer Hunting on the premises, August 1 to November 1.

Duck shooting superior to any in the state, over thousands of acres of wild celery and rice, September 1 to February 1.

Grouse and Pheasant Shooting on the place October 15 to November 15.

Best starting place in the county for a Bear hunt.

The Crater Lake Automobile road will run through the place for a mile and a quarter.

Navigable water to the property, unsurpassed drinking water, and power to develop the property.

More bottom land and fine garden land than any place on the lake.

Thousands of Pine and Fir trees and thousands of Quaking Aspens.

More varieties of wild flowers and natural grasses and vetches than any place in the county.

If you develop this property as it can be developed, there is no resort in the county that can compare with it.

No amount of talking will describe it—let us show you. We have been offered more than twice what it cost, but have a price at which you may take it—below which we will keep it.

J. G. PIERCE, W. T. SHIVE,

Klamath Falls, Oregon.

Advantages Gained for the Patrons of this Store By the Wanderer During His Trip to New York

Of course I cannot tell you all today, but from day to day you will see in this space, reasons why you should buy your merchandise here and the advantages gained by a trip east.

First—I went to New York (didn't go part way and pretend the rest) so I know of what I write.

Second—I can come to the people of Medford with the absolute assurance that every article offered by this store will be as new as will be offered this fall in the big New York stores.

Third—I made arrangements for a New York buying service that will guarantee us the newest merchandise and always at the bottom price.

Fourth—I can tell every week just what is being offered in New York and can prove that Medford women can dress just as well on a stated sum each year as New York women.

Fifth—I can prove that this store is selling goods offered by the big Chicago and New York stores for less than they ask for the identical goods when first placed on sale.

Sixth, and last for this time—This store is right in selling goods for close margins, in spite of the fact that some people say we ruin our business by selling so close.

A Hint to the Wise

All goods now on our shelves and on our racks will be sold from today on at slaughtered prices in order to make room for the incoming fall purchases. You have a full two months to wear these goods yet.

THE HUTCHASON CO.

Successors to Baker Hutchason Co.

WATER TURNED INTO CALIFORNIA PLANTS HEADQUARTERS FOR

REDDING, Cal., Aug. 18.—For the first time today water was turned into the Northern California Power company's south power plant, about five miles south of Balta. The plant has a capacity of 5000 horse power of electrical energy daily. The company owns three other plants—ne at Kiboh and two at Balta.

The capacity of the Kiboh plant is 3000 horse power and the Balta plants have 3000 and 4500 horse power capacity respectively. This means the total output of the plant is 15,500 horse power daily. The same water that is used to generate power at the Balta plants is used again at the south power plant, south of Balta.

Work on the south power plant was started on April 29 and its completion at this early day shows that no time was lost in its construction. The company is selling power in Chico and also furnishes the Pacific Gas and Electric corporation with power. The payroll of the company in the Mantion section last month amounted to \$67,000.

GENERAL WILLIAM BOOTH THREATENED WITH BLINDNESS

LONDON, Aug. 18.—General William Booth, for years head of the Salvation Army, is threatened with total blindness and has abandoned his projected tour of the provinces and will remain in England for treatment. A recent operation for cataract was unsuccessful.
