PRESIDENT TAFT BELIEVES IN TAX

Is Sure That New Corporation Tax Will Withstand Onslaughts of Enemies.

BEVERLY, Mass., Aug. 20.—Reports reaching Beverly from Washington and New York that the constitutionality of the new corporation tax is to be tested have not disturbed the president in the least. He so declared himself yesterday.

The tests and the protests, the president said, were all anticipated. Mr. Taft himself is thoroughly convinced that the tax will stand any test that may be applied to it.

Attorney General Wickersham is to see the president Friday to discuss with him a plan for reorganizing the interstate commerce commission for the amendment of the Sherman anti-trust law, and for bringing interstate corporations more definitely under control of one branch of the government.

According to Mr. Taft's view, the machinery to enforce the laws on the statute books is inadequate. He believes the interstate commerce commission is overworked and that it ought to be relieved of its jurisdiction as an executive body, its functions to be limited to the quasi-judicial investigation of complaints. He favors a new body to supervise the railroads.

PITCHBLEND FIND ON THE M'CLOUD

Enough to Give World Its Radium Always Reported in the Ledge.

KENNETT, Cal., Aug. 20.—According to the story told by Dr. S. W. Wilkins, who recently arrived here, enough pitchblende has been discovered on the McCloud river, north of here, to supply the world with radium for all time. Dr. Wilkins had in his possession some fine specimens of the precious stuff and so impressed were some of the business men of this place with his story that they clubbed together and sent an expert to visit the newly found ledge. The ledge is located 20 miles up the McCloud river from the confluence of that stream with the Pitt river.

HUGE HATCHERY WILL BE COMPLETED SOON

Fifty Million Fry Will Be Hatched Yearly at Bonneville.

PORTLAND, Or., Aug. 20.—One of the largest and probably the best-equipped fish hatchery in the United States, or for that matter anywhere, is now in course of construction near the mouth of Tanner creek, not far from Bonneville, and about 40 miles from Portland. J. W. Berrian, who has in charge the building of the big new hatchery, says that the natural food supply for fish in Tanner creek cannot be surpassed anywhere in the world and that the place selected for the hatchery is an ideal one for the purpose.

The main building is to be 230 feet long, with a width of 55 feet. There will be about 250 hatching troughs, to be built as the need for them demands and this to depend upon the number of ponds that can be arranged for the accommodation of the young fish as they mature. With the equipment contemplated, it is expected that the hatchery will be able to turn out from 40,000,000 to 50,000,000 fry each season. A specialty will be made of the Royal Chinook, and development of this fine native species will be the first object, but incidentally all the other standard species will be cultivated.

Water is to be piped about a quarter of a mile from Tanner creek to the hatchery site, and it is expected that a flow of 2000 gallons a minute will be secured. From six to eight men will be employed steadily when the hatchery gets under way, and for the accommodation of the superintendent and his assistants comfortable and modern living quarters are being built. Throughout the building and all its equipment, the best and most modern materials, plans, machinery and apparatus will be used. Work was begun on the building on July 13, and it is expected that it will be completed and ready to put in operation within two months from that date.

FIRE RAGING ON GRIFFEN CREEK

Settlers in That Neighborhood Out in Force Endeavoring to Save Their Homes.

A forest fire is raging in the upper Griffin Creek country and the settlers are out in force endeavoring to check the flames. Only the most meager reports can be obtained, but it is reported that several homes in that neighborhood are in danger of burning.

PLEASANT SURPRISE FOR BIJOU PATRONS

As a rule the less said of the average traveling troupes the better, but there is an occasional exception, such as the Venetian street musicians, and the Byer Brothers, who gave a performance at the Bijou theater last evening. They have been playing to packed houses on the Pantages circuit at Seattle and Tacoma and are now on their way to Sacramento to fill an engagement, and the only reason they stopped at Medford was their desire to see the Rogue River valley and to win a bet made with parties in Seattle that they could make their expenses to Sacramento by stopping at not more than three towns and giving performances without previously announcing their intention of stopping or in any way arranging for a house until they had reached the town in which they were to perform, and still be in Sacramento Monday afternoon. As to whether they will win their bet or not cannot be told, but it is safe to say that nothing better in the trick bicycle riding line has ever been seen in Medford, and there were many in the audience last night who have paid \$2.50 for standing room and listened to a poorer rendition of the harp and violin solo, "Poet and Peasant," and the selection from "El Trovatore," given as an encore by the violin soloist.

They will appear at the Bijou again

The 3rd Installment On The Reason Why

Are you making a file? Whether you do or do not, we feel that you appreciate our efforts and we will strive the harder.

Tenth—By means of a daily bulletin sent out each day from New York we can tell as soon as the mails reach here just what is being brought out new there, and will endeavor to bring to the doors of Medford ladies the articles they most desire.

Eleventh—By making this trip I secured the exclusive right to the American Tailoring Co.'s made to measure system and can now take orders for suits, skirts, etc., so that no one need to feel that they have to send away for anything in order to get something entirely different from any thing shown in Medford.

Twelfth—This trip places this store in such a position that you will be acting very unjustly towards yourself and friends in business if you do not first try to secure your needs here before sending away to houses in distant cities that not only do not help to support this section, but do not sell any closer or offer any newer styles. Beside we will be glad to send for anything anyone desires. Give us all the trouble you can.

They Are Going Fast

The goods suitable for summer wear and which you can use for almost two months are now on sale at this store at prices that show REDUCTIONS OF FROM 33-1-3 TO 60 PER CENT. MAKE YOUR SELECTIONS NOW.

FIRE SWEEPS TIMBER CLAIMS

Apprehension Felt for Son of E. H. Harriman—Claims Recently Awarded Damaged.

SPOKANE, Wash., Aug. 20.—A line of fire three miles in width is reported sweeping over valuable timber lands of the Coeur d'Alene Indian reservation, causing thousands of dollars damage and seriously impairing the value of the claims recently awarded by the government to homeseekers.

The fire, according to advices from Coeur d'Alene and Rockford, has already done damage estimated at \$600,000. There is apparently no means of checking it because of the wind. It started yesterday in an O. R. & N. camp and it is feared that parties of surveyors of that road may be caught. Apprehension is felt by the road officials, particularly for the safety of Everett Harriman, son of E. H. Harriman, who with a school chum is with a surveying gang. No word of the parties has been received, owing to the difficulty of communication.
