WHEN JACKSONVILLE PASSED THE BET

History Shows That Sometimes the Future of a Community Hangs on Single Thread.

The Oregonian in its issue of August 31 recalls in an editorial a bit of ancient history concerning Jacksonville county. It says:

Announcement of better service on the short railroad between Medford and Jacksonville recalls how the county seat of Jackson missed the opportunity to retain its place as the chief city of southern Oregon. When the Oregon & California (now the Southern Pacific) was extending its line to the Siskiyou, 25 years ago, it offered, for a comparatively small small bonus, to make a detour so that Jacksonville would be on the main line. The town declined to raise it, so Jacksonville was left "out in the cold." If the railroad had gone to Jacksonville the probability is the active and rapidly growing city of Medford would never have sprung into existence.
