tournament as shooters could be elected to the tribe.

A resolution of thanks was voted to the officials of the organization, especially the statistical force in charge of the shoot, E. S. McColl, and to Chief Make 'Em Fly Charlie North, who kept the traps and target force running smoothly, and especially to the newspapers and people of Medford for their warm reception and entertainment while here.

To Frank Riehl is due the thanks of the organization, for it was due to his untiring efforts that the Pacific Indians was organized and carried to success. He organized a similar band 15 years ago in the east, which is still a flourishing organization.

A very flattering offer to hold the next annual meet at Nelson, B. C., was made to the club by George Welles of that city. However, it was not definitely decided upon and will not be until other clubs can be heard from.

The Winners.

Lee R. Barkley of Seattle and Fred Gilbert of Spirit Lake, Ia., both professional shooters and representatives of the Winchester Repeating Arms company, tied for high score in the Indian shoot, breaking 446 birds of a possible 460, while second and third place by professionals were won by Frank Riehl of Tacoma and H. E. Posten of San Francisco.

In the amateur shoots first place was won by J. G. Naquin of Globe, Ariz., with 436 birds, and second and third places by J. E. Cullison of Portland, 433, and Hellman of Ashland, 422.

In the medal event in all classes the winners made possible scores, breaking 50 straight, and were won by Riehl of Tacoma, King of San Jose and Hellman of Ashland, respectively.

Gilbert made the highest run during the shoot, breaking 132 straight, with Naquin second, 127, and Barkley third with 121.

Gilbert and Barkley, the two high guns, have been shooting together all this season and at the last four regular shoots they have tied on two and in one Barkley won one shoot by one target and the other Gilbert won by one target, so that this shoot ties them in their last 1200 targets shot at. These men were on the team that made the world's record November 21, 1907, at Leasburg, Fla., breaking 496 birds out of a possible 500.

Played it to the Limit.

Many writers have declared that an Irish gentleman's hospitality is unlimited, but this is a slight exaggeration, as is shown by a story borrowed from a book of Irish memories.

Jerry McCarlie was often the guest of friends who on account of his pleasant ways extended to him that sort of old Irish hospitality which enabled a visitor in my own family who came for a fortnight to stay for six years.

In McCarlie's case the visit stretched to nearly double that time. After eight or nine years, however, his kinsman got a little tired of his guest and let him know of his old mansion's proposed renovation and that he had signed a contract for having it painted from garret to cellar.

"By George," said Jerry, "it's fortunate that I don't object to the smell of paint, and it will be well to have some one to keep an eye on the painters now that the wall fruit is ripening."

Some months passed. Then his host informed him that he was going to be married, adding, "I thought I'd tell you in good time, so that you could make leisurely preparations to go, as the lady and you may not hit it off as well as you and I do."

With fearful eyes Jerry grasped his cousin's hand, saying:

"Oh, Dan, dear, you have my hearty thanks for your consideration; but, dear, dear boy, surely if you can put up with her I can."

WITHOUT SHOW OR POMP TO LAY MASTER AT REST

isolated desert stretches or mountain defiles, today are showing a bit of crepe in token of the passing of the master hand. The orders went forth from the central offices Thursday evening and today a mark of respect is everywhere shown. Only a bit of crepe, quiet and unpretentious is to be shown.

LOCAL SOUTHERN PACIFIC OFFICE IS DRAPED WITH CREPE

The local office of the Southern Pacific company is today draped with crepe over each entrance out of respect to Edward H. Harriman. Orders were received by Agent Rosenbaum Friday morning to that effect. The order was given to have only a bit of crepe shown, as one of Harriman's traits was a love of quietude.

CAUSE OF DEATH WILL PROBABLY REMAIN A SECRET FOR ALL TIME

TURNERS, N. Y., Sept. 10.—The cause of Harriman's death will probably remain a secret, as his physician and family refuse to give out any information. It is announced that an autopsy will not be permitted. Cancer talk has been revived by the great secrecy. It is known that Harriman knew his end was near, as he prepared his private papers.

AMERICAN SECURITIES IN LONDON REMAINED WITHOUT A BREAK

LONDON, Sept. 10.—American securities did not break today following the announcement of Harriman's death. American financiers in New York, who came to the rescue of the market, cabled London, and as a result the market remained steady.

HARRIMAN'S DEATH REMOVED GREATEST OBSTACLE TO HILL

PORTLAND, Or., Sept. 10.—The death of E. H. Harriman has removed from the path of J. J. Hill the greatest opponent the empire builder ever had in the northwest, and has thrown a heavy weight in the Hill side of the scales in the battle for control of central Oregon and central California. It has given Hill incalculable advantage in the northwest, where a railroad war is predicted. Although Harriman's death will not result in a recession on the part of the Union Pacific system or its subsidiary western lines either in its operating or legal battles, it will be followed by a decided lack of impetus on the part of the renowned Harriman lines. As a leading legal adviser of the O. R. & N. said today, "The machine will go on irresistibly, even though its principal parts all were broken."

ENTIRE SYSTEM TO BE SILENT AS DEAD CHIEF IS CARRIED TO GRAVE

SAN FRANCISCO, Sept. 10.—For one minute on Sunday afternoon during the funeral of Harriman, the activities of all the Harriman lines will cease. Every train, steamship and telegraph instrument along the 49,774 miles of the system will be silent while the dead chief is carried to his grave.

Orders to this effect were issued today by Julius Kruttschnitt to all officers. All trains will stop at 3:30 Sunday, New York time, all propellers will cease to revolve and the ships will drift in mid-ocean for 60 seconds. All the offices of the system will remain closed tomorrow.

PALMER ESTATE PAYS A TAX OF \$75,000

COLORADO SPRINGS, Col., Sept. 10.—The state inheritance tax on the estate of General William J. Palmer, pioneer railroad builder in the west and founder of Colorado Springs, was presented yesterday to the county treasurer. The tax amounts to \$75,410, the second largest ever paid in the state. The largest tax ever paid was that on the W. S. Stratton estate, amounting to \$290,000.

Success of One Piece of Music.
Very few know anything about Suppe, the composer of "Fatinitz" and several other operas and the father of the "Poet and Peasant" overture. The latter was composed of an entirely different piece and fell flat. The author then tried it at intervals of six months and a year with two other plays and no one found it pretty. Lastly, because there was not time to write a new overture, it was used with a long forgotten farce called "Poet and Peasant." The farce was successful and people endured the overture. Then somebody asked permission to publish it in a journal, arranged for the piano. Soon everybody was playing it. Then a music firm bought of Suppe for \$25 the right and published the score. They made a clear \$40,000 with it.

In Mourning.
A peer, who was the master of a fine hunting pack, died, and his widow refused to let the hounds go out. Whereupon a friend asked a former chief justice of England, who was himself a huntsman, whether any harm would be done if the hounds were allowed to run with pieces of crepe round their necks. "I can hardly think that even crepe is necessary," was the reply. "It would be sufficient if the hounds were in full cry."—London News.

Why allow your eyes to use more than their normal supply of nervous energy? Even a slight saving each day may mean much to you for future health. We never prescribe lenses until we have taken nerve measurements under pressure and with pressure removed to prove accuracy of our findings which relief is sure to follow.

Improper adjustments of lenses not only detracts from appearance but adds much to eye strain.

LUMBERMEN OWE BACK FREIGHT TO RAILROADS

SEATTLE, Wash., Sept. 10.—Four hundred and four firms, represented by the Pacific Coast Lumber Manufacturers' association and the Shingle Mills bureau in the state of Washington, owe the Great Northern, Northern Pacific and Canadian Pacific railways \$358,196 for rate difference undercharges, due the carriers from shippers on shipments moving between November 1 1907, and October 14, 1908. The liability of the shippers has been approved by the accounting officers of the carriers 331 E. Main street.

and by A. F. Specht, secretary of the lumbermen's freight rate committee, for the purpose of adjustment and release of bonds to which the Pacific Coast Lumber Manufacturers' association and the Shingle Mills bureau are parties, as well as a few supplementary bonds. The total of \$358,196 owed by lumber and shingle shippers is divided among the railroads as follows: Northern Pacific, \$203,751.46; Great Northern, \$147,311.75; Canadian Pacific, \$7,133.51.
