## FIRES DAMAGE FORESTS IN WEST FORK DISTRICT

Vernon Anderson of the forest service who has been out in the field for some time has returned to Grants Pass, bringing with him his partner, Charles Lewis, who was made deathly sick with ptomaine poison, caused from eating canned corn. The were camping at the head of Murphy Creek at the time, and a long way from settlers, and Anderson had to make a long tramp to the nearest camp, to get a rig with which to bring the sick man, who was suffering terribly, in to this city, where he could be cared for by a doctor.

Anderson reports fires raging in the West Fork district, for the past two weeks. He states that the entire country is being burned over, destroying some of the finest timber in southern Oregon. The flames have crossed and recrossed Cow Creek repeatedly and have gradually been working toward the natural forest. On this account he has called out all the assistance available here to guard the tract. All the laborers that could be picked up have been drafted in to fight the flames, which will do incalculable damage. It was reported that the fire was set by three Grants Pass boys.
