Acreage Property At A Bargain

We have three acres, just outside the city limits, platted all around it, with a new five-room house, which we consider a bargain at

\$2200

The property faces on two streets and would subdivide nicely. There is an electric motor and pump which goes with the place, and the well would supply water for irrigating.

The owner has made the price low in order to sell quickly, and the property will be on the market but a short time at this price.
