CENTRAL POINT IS RAPIDLY GROWING

There are a great many ways in which to estimate the progress and prosperity of a community, but the building operations are usually considered the most authentic record, and, accordingly the Central Point Herald has prepared an estimate of the buildings that are now under construction in Central Point, or that have been completed within the past few months, and while the list is only a rough estimate, yet it will convey an idea of what is doing in that locality to outside readers. As prepared the list will total nearly \$40,000 and it is quite probable that they have omitted a number of small cottages that have recently been completed. The list follows:

C. B. Rostel, business block	\$ 8,000
C. B. Rostel, residence	2,000
I. F. Williams, business block	2,500
I. F. Williams, residence	1,000

CHANGE MADE IN CARRIER DISTRICT

Owing to the fact that letter carriers are prohibited by law from working over eight hours a day, it has been found since the establishment of free delivery that Carrier

No. 1 has more territory than he can cover in the required time. In consequence thereof it has become necessary to discontinuing the service on North Beatty street and North Central avenue after Monday, September 27. This territory will be served again as soon as the department allows the postoffice another carrier. In the meantime all of those patrons who had boxes in the office prior to the establishment of free delivery

can retain them. After October 1 there will be plenty of boxes for rent.

Christian Science.

Christian Science services are held every Sunday morning at 11 o'clock in the Commercial club room. Subject of the lesson-sermon for September 26, "Reality." All are welcome. Sunday school at 10.
