**COLONIST TRAVEL SETS NEW MARK**

PORTLAND, Sept. 30.—Colonist travel into Oregon and Washington over the Harriman lines has broken all records again for the opening week of the fall season. Reports just received of the total for seven days at the office of General Passenger Agent William McMurray, show that the initial seven days of the season saw the Harriman lines bring into the two northwest states 1168 persons, which is 61 more than came the first week of the 1908 fall season. In 1908 the first week embraced a period of eight days, whereas this year the week is a period of seven days. Seven days of 1909 brings over the system 61 more persons than did eight days of 1908.

"Tremendous travel is in sight," said Mr. McMurray this morning. "Our reports indicate that the throng is gathering. The advance guard proves it. All officials connected with the work are confident that 1909 will prove a banner season that must tax the future to excel."

Conditions are held propitious for the grandest rush known during any fall in the immigration history of the northwest. The past summer the communities of Oregon and Washington have been spending thousands of dollars in advertising their respective merits. Railway companies have been circulating more literature than ever before, the press of the country has been giving northwest industrial topics more space, and everywhere is evidence of tense interest.
