MILLER ACQUIRES INTEREST IN LOUVRE

Former Steward of Nash Buys Interest in Louvre—Will Have Charge of the Dining Room.

C. D. Miller, formerly of the Nash Grill and one of the most widely known stewards between Portland and San Francisco, yesterday completed a deal whereby he acquires an interest in the Louvre Cafe, and with his partner, Mr. Johnson, expects to make this already popular cafe the best of its kind on the coast. A number of changes will be made in the interior arrangements, which will give greater floor space for the main dining room, of which Mr. Miller with his own crew will have full charge, while Mr. Johnson will oversee the culinary department with Mr. Wyatt, former chef at the Nash, as assistant and night chef.

Special features will be the attention given to the planning and serving of banquets, special suppers of all kinds and special music during the dinner hour. From the reputation which Mr. Miller now possesses the patrons of the Louvre may rest assured that nothing that will tend toward making these occasions a success will be left undone, so, taking everything into consideration, chefs, stewards and help, all past masters in their special line, it is safe to assume there will be no lack of patronage.

LESS STOCK THAN EVER IN COUNTY

Doman Reports That Continued Low Price for Beef Diminishes Herds.

L. L. Doman, secretary of the Jackson County Stockmen's association, who recently made a tour of the Cascade and Siskiyou mountain ranges and who is familiar with the other southern Oregon ranges, reports that range cattle are in fine condition and better than usual at this time of the year. He reports that there is less stock than in former years on the ranges. This is due to the continued low price of beef stock for the last few years and to the ranges having been injured in the past by overstocking. Now much of the stock has to be fed before ready for the market, while formerly every animal was in prime condition off the grass. Feed has raised in price, owing to so much hay land being planted to orchards, and the dairy industry has encroached on beef production, for the building of five creameries in the Rogue River valley and the high price of butter and also of cream and milk for the town milk routes has caused many stockmen to desert the saddle for the milking stool.
