## BIG PINES LUMBER CO.

| $\qquad$ $\qquad$ <br> Lumber Dealers Meet and Report Ac- <br> tive Market with Bright <br> Outlook. $\qquad$ <br> Demand for Oregon and Washington lumber has greatly improved during the last month. and manufacturers are looking forward to an unusually busy season next year. The gratifying increase in business, which has been quite dull during the last two years, was a topic of general discussion at the regular monthly meeting of the Oregon and Washington Lumber Manâfacturers' association, held in Portland Saturday afternoon, and neariy every member present testified to his own knowledge of the growing demand. <br> Since the panic of 1907 the lumber business has been depressed and not until recently has there been much of an encouraging improvement in the couditions. The improvement in the demand for lumber is taken as a proof of growing prosperity in all sections of the country. <br> The selection of the rarest quality of Oregon fir for the interior finish | of the reecption room of the international burean of American republies, to be built in Washington, D. C., formed a live topic at the meeting. The association has requested every manufacturer to ship to Portland at least 1000 feet of his choicest green fir, and from the 20,000 feet thus to be sent the final selection for the 4000 feet to be used in the building to be constructed at Washington, D. C., is to be made. John Barrett, director of the bureau of international republics, was formerly a Portland newspaper man, and his loyalty to the state of Oregon caused him to finish the reception room of the new bnilding with Oregon fir. <br> One of the more important features of the ureeting Saturday was the agreement to standardize odd lengths of higher class lumber as a matter of economy. It has been found that many contractors desire odd lengths, and instead of selling lumber in the future in lengths divisable by two feet, the higher grades will be placed on sale at odd as well as even lengths. <br> Herman Bros., the saddle and harness makers, desire to announce to the trade that they are not only prepared to fill all orders at short notice, but carry the most complete live of harness, saddles, bridles, whips. rohes, blankets, wagon covers, tents, etc., that can be found in southern Oregon at prices that cannot fail to please when quality of stock and workmanship is considered. Don't forget the place, 317 E . Seventh street, Medford. | COOS APPLE CONSIGNMENT <br> NETS 95 CENTS A BOX <br> MARSHFIELD, Or., Oct. -S.- G. <br> G. Swan, secretary of the Coquille Valley Fruitgrowers' Association, has received returns from the marketing of this years's crop of apples. The entire shipment of 900 boxes sent out by the association found a market in Portland. Ouly one box of the fruit was damaged in shipment. The growers received 95 cents net a box for their fruit. This is the first time the members have attempted to market their fruit as an association, and the plan will be followed next year, as the price received was gratifying to the growers. While the price was not as large as that received by the Hood river growers the members of the association feel that they have made a step in the right direction. Last year only about 60 cents a box whs realized. The price was bettor and the shipment was, larger muder the association plan than any prev- <br> KING MANUEL FEARS <br> JOURNEY TO MADRID <br> LISBON, Oct. 18.- The advisors of King, Manuel of Portugal today notified King Alfonso of the cancellation of Mantel's intended visit to Madrid in November, owiug to the disorders following the execution of Ferrer.
