
**FROM ALL OVER
 JACKSON COUNTY**

Gold Hill.

The Gold Hill Lumber company's mill on Sardine creek started up on Tuesday, on an order for 80,000 feet of lumber for the Grey Eagle mine.

Mrs. Holsey of the Blackwell district was in Gold Hill Wednesday. She took home with her several quartz location blanks, one of which she proposes to use immediately.

J. McKey of the Medford Lumber company was in Gold Hill Wednesday attending to some business connected with the lumber hauled in from Birdseye, for his company.

F. W. Dodge of the Electric Gold Dredge, has received word from the east to resume work at that institution at the earliest possible moment, which will probably be in several weeks.

F. W. Dodge, civil engineer, went to Medford on business Wednesday. Mr. Dodge is at present interested in gathering information for the completion of a map on a larger scale of the Gold Hill mining district than has heretofore been in use.

F. L. Eddings, Floyd Eddings, Clyde Walker and Charles Dungan started Wednesday morning on a 30-mile hunt for big game. They took three pack horses and five dogs with them and will be gone eight or ten days.

Woodville.

Mr. Shorrod's new quartz mill will soon be in course of construction; then look out for the man with a gold brick.

Henry Breeding returned from Hugo Sunday morning with one of the fair sex in tow. We think it is time for the old tin can.

Possibilities for Woodville—First, just out of town to the west is the brickyard owned by C. W. Horten, where one can get some of the finest brick in southern Oregon. This has just been opened up the past summer and promises to become quite an industry.

Next we have the Homestake mine, that has in the past been a large gold producer, until the company became involved through the bad management of their superintendent. They still have immense bodies of rich ore in sight, and joining the Homestead is a claim owned by E. Stevens, where some very rich ore is in sight. This property is practically undeveloped, but promises good.

Then comes Mr. Conway's copper prospect, an undeveloped property, but one that promises good, being in rich in copper and in gold.

Now we come to the sawmill section. Milburn Knapp owns and operates a sawmill on Fielder creek in the midst of millions of feet of as fine timber as one will see anywhere.

Carter and Owens are operating another farther up Ecnus creek.

McKee, Cowen & Hodges on Pleasant creek, have a large mill with almost unlimited supply of timber.

Evans Creek.

We are having very nice weather up on Evans creek. The farmers are busy seeding grain, and busy as bees gathering corn.

School of May's Creek has begun. It started about three weeks ago. The teacher is Mrs. Lizzie Summerville of Evans Creek. She is a very kind teacher to her pupils. They had a nice time Friday—had fine speaking.

William Moore of Evans Creek sold his place a mile above Wimer. He received \$1500 for it. The buyer was Mr. Ingleden.

The Oden brothers are very busy at their sawmill and are cutting timber quite fast.

William Van Guethan, near Wimer, has put himself up a new barn, and now he is preparing to build a new house.

Mr. Streets, the man who bought the Oden place, is fixing the Oden house up. He is getting it to look very nice. Mr. Streets has a nice automobile up to his ranch near Mays Creek school lot.

Savage Creek.

As the recent rains moistened up the ground, the farmers in this locality are now busily engaged in plowing and preparing the land for the future crops.

Little Helen, the youngest daughter of Mrs. M. T. Rick, has been very low with paralysis and rheumatism, but at present is slowly improving.

Who says we don't have good times in our neighborhood? I guess our

school picnic which we had last Sunday proves this fact. Having started early, we arrived at the top of "Fetch mountain" about noon and everyone did ample justice to the luncheon, which was immediately spread. From this high eminence we were able to see many places of interest, as Mt. Logan, Table Rock, Gold Hill, Medford, etc. After exploring the mountain we started on our return, reaching home about dusk quite exhausted, but feeling amply repaid for our exertion as the scenery was very beautiful.

Clark Savage has finished threshing his beans and as a result has 1200 bushels ready for market. This is a remarkably good harvest for one acre of ground.

Talent.

Mrs. Ed Stites from Denver, Col., is visiting with her parents, Mr. and Mrs. D. Stump of Talent.

J. S. Spitzer has shown himself to be a progressive citizen by building a new sidewalk on the street near his residence property.

John Shideler has much improved his place by making graveled walks and graveled the sidewalks near his residence.

On Saturday Mrs. W. Quackenbush was in Medford fraternizing with the merchants.

Mrs. W. Spitzer on Saturday returned from an extended visit with friends and relatives in Kansas.

Marion Tryor from Medford has rented one of the new store rooms from C. W. Wolters and will put in a stock of hardware. Mr. Tryor has trouble in finding a house to rent in Talent. More houses are badly needed.

L. E. Deames and family arrived in Talent Saturday from Oklahoma. Mr. Deames is a son of Mrs. L. Waterman of Talent and will permanently locate here.

N. O. Powers is building a two-story addition to his dwelling house. Next year he means to tear down the old house and replace it with a new residence.

The flowers and lawn in J. R. Robinson's front yard demonstrate to the people of Talent what can be done with irrigation. All we need to beautify our homes is enterprise. Mr. Robinson and wife deserve credit for setting the example.

Prepaid Railroad Orders.

"Something which is of considerable interest to the public generally and which is perhaps not generally known is in effect between stations of the Southern Pacific company and all points in the United States. By means of this system tickets may be purchased at Medford from any place in the United States and mailed or telegraphed direct to the party wishing to come here. Sleeper accommodations and small amounts of cash in connection with these tickets may also be forwarded at the same time."

**LARGE APPLE ORCHARD
 PLANTED IN WASHINGTON**

SPOKANE, Wash., Oct. 18.—What is designed to be the largest commercial orchard in Washington, devoted exclusively to Winesap and Spitzenburg apples, will be developed near the town of Entiat, Wash., in the Columbia river valley, north of Wenatchee, by a syndicate headed by H. J. Shinn and Dr. Frederick N. Essig of Spokane and Joseph Platter of Entiat. The new firm has 480 acres of land on the Entiat river, where it will plant between 39,000 and 40,000 trees, including 8000 already in the ground. The land is served by the company's irrigation plant, taking water from the Entiat river. Contracts have been awarded for 31,000 winesap and Spitzenburg trees, which will be planted this fall and next spring. Experts say that these varieties are certain to be accepted by the American Pomological society at its convention in 1912 as the highest standard commercial varieties because of their color, flavor, uniformity and keeping quality.

**GERMANS THINK BRITISH
 SEEK TO PREJUDICE US**

BERLIN, Oct. 18.—Recent speeches attributed to Lord Northcliffe, Lord Charles Beresford and Earl Grey, together with magazine articles upon British-German relations, have been widely reproduced and commented upon in Germany. It is feared that a regular campaign has been started to deprive Germany of America's good will and make it appear that Germany is threatening Britain. It is pointed out that all suggestions of trouble between Germany and Britain come from the British.

It is noted that the war party in Great Britain today is small but influential, and, fed with doubts, misrepresentations and fanciful accounts of Germany's aims, is gathering strength.

An official effort is being made to restrain German comment upon these speeches and articles.

For the Best

in harness, saddles, whips, robes, tents, blankets, wagon sheets, axle grease and gail cure, as well as all kinds of custom work, see

J. C. Smith
 314 E. Main.

**Acreage
 Property
 At A Bargain**

We have three acres, just outside the city limits, platted all around it, with a new five-room house, which we consider a bargain at

\$2200

The property faces on two streets and would subdivide nicely. There is an electric motor and pump which goes with the place, and the well would supply water for irrigating.

The owner has made the price low in order to sell quickly, and the property will be on the market but a short time at this price.

W T. York & Co.

"For you particular customers who demand the best groceries, we recommend Folger's Golden Gate Coffee."

It is so good we cannot obtain a better coffee—not if we paid \$1 a pound for it.

Everything about Folger's Golden Gate Coffee is perfect, and we sell it with the positive guarantee that it will please you.
