**"THREE TWINS" SAID TO BE THE ONE BEST BET**

The "Three Twins" which will be the attraction at The Medford theatre October 26, is offered without fear of contradiction as the most gigantic musical comedy on the road. It is the most elaborately staged pro-

duction in America and is said to contain more novel features than all the other musical comedies combined. The faceograph and the electrical aerial swing are distinct novelties, the latter being one of the most wonderful pieces of stage craft ever perpetrated. It is a steel structure weighing over 4000 pounds and illuminated with over 2000 electric lights.

Mr. Gaites has spared no expense in staging the attraction and the New York Telegraph said that it was the handsomest costumed company on Broadway. It requires two baggage cars and three coaches to transport the "Three Twins" company.

Scale of prices—Lower floor, 1st two rows, \$1.50; next ten rows, \$2; next four rows, \$1.50; last five rows, \$1. Balcony: 1st three rows, \$2; next 2 rows, \$1; general admission, 75c.
