Flower Gardens of the Sea.

The sea has its flower gardens, but the blooms are not on plants as they are on the land. It is the animals of the sea that make the gardens, the corals of the tropical waters particularly making a display of floral beauty that fairly rivals the gorgeous coloring and delicate grace presented by land flowers. So closely do they resemble plant blooms that it is hard to believe that they are wholly animal in organization. A naturalist says that among the coral gardens there are fishes of curious forms and flashing colors darting about, just as the birds and butterflies dart about plant gardens on land.

Not Much to Make Up. "Po' goodness sake," impatiently exclaimed Mr. Cooney during the poker game, "speak up lively an' say what yo' an' gwine to do, Mose! Why, it don't take me no' den two seconds to make up mah mind."

Where Women Swim Best. "The Korean women are the best swimmers in the world," said a life guard. "The Korean pearl diving is in their hands. They swim—they don't boat—they swim out to the pearl fisheries of Queipert, lugging baskets with them. After this swim of half an hour they dive down fifty feet and fetch up queer one shelled pearl oysters as big as babies. They dive till their baskets are full—the baskets are corked to keep them afloat—and after three or four hours' work they swim back home with their catch. The big one shelled oysters are valuable as pearl mines and as food too. A half dozen Koreans will sit down to an oyster as gaily as you or I sit down to a broiled lobster. Sometimes when the great shellfish is eaten raw it quivers and means slightly as the knife is plunged into it."—Philadelphia Bulletin
