### The Herring.

A peculiar feature in the herring trade is that an exceptionally large catch during one season has no effect whatever upon the next year's supply; also, large as is man's consumption of herrings, naturalists say the number killed by fishermen is quite insignificant as compared with the quantity destroyed every year by sharks, porpoises, cod, dogfish, ling and other fish, each of which must have its daily meal of from one to two score herrings, to say nothing of the sea birds, which practically live on surface feeding fishes. Herrings are not at all a modern article of diet. A vast commerce in them was carried on in northern Europe all through the dark and middle ages. The herring's chief food consists of minute organisms, which it strains from the water by its gills, but it also eats worms and at certain seasons its own young, sprats and sand eels.—Pearson's Weekly.

### Rule of the Corset.

If Cleopatra wore corsets she may rank as a royal champion of them with Catherine de' Medici, who is credited with having introduced the busked corset in France from Italy. Male monarchs have been less friendly. Joseph II. of Austria tried to discourage the corset by making it part of the costume of a convicted woman of bad character. Napoleon, shaking his head over the tight lacing of his day, told Dr. Corvisart that he saw in it a sign of frivolous tastes and a menace of coming decadence. The restoration kings, Louis XVIII. and Charles X., were equally hostile. Formerly, said the latter, France had been full of Venuses, Dianas and Nubes, but now there were only wasps. The revolution alone temporarily put down the garment that has triumphantly defied kings.—London Spectator.

At the meeting of the Methodist Brotherhood the first of the week Clarence Meeker was elected president; L. F. Belknap, first vice-president; Fred Friderger, second vice-president; G. Lindley, third vice-

president; Roy Martin, secretary, and O. C. Boggs, treasurer. The business of the meeting having been concluded, refreshments were served and the social features were taken up. Arrangements have been made for

having meetings semi-monthly and the present members of the Brotherhood are out after recruits.

M. B. Kassel of Centralia, Wash., stopped off in this city on a tour of the coast and is looking around.
