EDITORIAL.

Since the removal of our office, we have been turning out a fine line of Job Printing. Our increasing patronage is evidence of the superiority of our printing over that of any other office in the city.

We have just increased our facilities in the line of type, border and cases, and shall continue to add more material to our now complete office, and, speaking of job printing, we can and do turn out the best work in the city.

Although the coming circus carries its own detectives, we take this opportunity of warning our readers against the "sure thing" man who works on the side. We are informed that the "soap racket" is the leader for this show.

Ignoring the rules recently passed, many of the people are using the city water for irrigation purposes on all days of the week and the city has not energy enough to enforce its laws. If the city permits the violation of her laws and regulations to continue, her place in the front rank of progression will be forfeited for a back number Democratic seat.
