EDITORIAL.

We know that we sometimes make mistakes, but

"Reader, how can you hope to see
 Each sheet from error always free?
 When next in thought you wield your
 pen,
 Reflect, that printers are but men;
 Why then expect, in them to trace,
 What's never found in human race."

You will notice that we have re-published the part of "The Reform Motive" that was published last week, owing to several important typographical errors resulting from our unfamiliarity with the writing. The continuation will be found on the back of the supplement.

We have been so rushed with job printing that this issue was gotten out in a hurry. Our increasing patronage along this line is convincing proof that the people are becoming tired of paying two prices for work so poor that they were ashamed to send it out, and are coming where they get the best work in the city at the lowest price.

The suit of Real vs. Green in Justice Luckey's court was finished last night about 12 o'clock. Attorney Briggs, by a long, tiring address, succeeded in winning the sympathy of the jury, and after being out but a short time, they brought in a verdict of \$100.61 damages in favor of Green. The suit not being one for damages but for possession of property, the verdict was not considered, and Green is left in possession of the property. The jury was discharged and the case is still unsettled.
