And faith he 'll prent it.

—BURNS.

T. K. Roberts, the founder of the Gold Hill Miner, has disposed of his interest in the paper to his partner, E. E. Phipps, who will continue the publication of the sheet as a Peoples Party organ.

The ADVERTISER wishes the new management success.

There exists between Ashland merchants and townspeople a lack of cooperation from which no benefit can possibly be gained. The merchants are most rigidly opposed to the people sending out of town for anything, but they never stop to think that the merchants themselves are to be blamed. Instead of buying certain articles of commerce from our home people, they send off for them because they can buy them somewhat cheaper. Vegetables and dairy products come under this head. As a natural consequence, the importation effects the price of the home article, and our home people, unable to find a satisfactory market for their products at home, are disinclined to patronize home merchants when they can do as well or better elsewhere.

If home merchants would make it a point to find a market for home products, home people would try to make a market for the other things that the merchants have to sell, and, in this way, local business would increase.

J. R. Casey, Horticultural Commissioner for 3d District, is visiting all the orchards in his district, waging war on the scale. He reports some orchards very badly infected with the pests. All orchardmen are willing to spray, but most of them, having no spraying outfits and not wishing to go to the expense of buying them, are desirous of hiring their spraying done. Thus, there is an opening for someone to make some money during the next month or two.
