Governor Bradley, of Kentucky, displays sound judgement and the true American spirit in ordering out the state guard to preserve the equilibrium between riotous and peaceful dispositions.

Next Wednesday will be the third anniversary of the ADVERTISER. We leave behind us a record of three years of unparalleled success, and to-day we stand at the head of the Amateur Newspaper World. With apologies to Phoebe Cary, we quote:

One truly pleasing thought
Comes to us o'er and o'er;
That we're nearer success to-day
Than we've ever been before.

A report was current that a full grown, up to date comet, with all the latest improvements, would strike the earth a knock-out blow last Saturday, in which event, Coxey's proudest schemes would be given a permanent black eye and there would not be enough of the earth left to support the People's Party platform, and posterity would never know what had been in store for them, but it didn't—it did not scare one tenth of our delinquent subscribers into settling up their arrears—and the earth rolls on its course as unconcernedly as though there had been no probability of a collision.

The Normal Students intend to clean up the school grounds Friday afternoon.

About eleven o'clock last Saturday night the Normal flyer figured most prominently in a smash-up on the school campus. The team was left standing alone when the horses became frightened and ran away. The trees interfered somewhat, and the bus was badly wrecked. It is now in use again, however.
