

W. C. T. U. Gleams.

Woe unto them that put darkness for light and light for darkness.—Is. 5, 20.

March 20 was the ninety-second birthday of that grand old pioneer in temperance work, Gen. Neil Low.

Baron Liebig is quoted by Archdeacon Farrar as saying that if one drank 750 gallons of best Bavarian beer, he would get no more nutriment than from a five pound loaf.—Union Signal.

Temperance people rejoice to note that there is a steady increase of temperance members in the United States Congress, and are much gratified that Speaker Reid selected as chairman of the leading House Committees, that of Ways and Means, Representative Dingley, of Maine; and Representative Morse, another active temperance advocate, chairman of the Committee on Alcoholic Liquor Traffic.

And now, following the guiding star of Truth, an Indian presses to the front of temperance ranks. Hear him: "I regret very much to hear of so many of our people causing so much trouble and pain to those who are our friends; am almost discouraged to hear of so many being put in jail, all owing to the liberty of getting whisky, which is ruin to us all." He then advises that his people be instructed on the subject, advised to go to church, send their children to school and teach them to work.

And we respond, God grant that the wisdom of this red man may spread through the ranks of his white brethren until the terrible evil is blotted out.
