We are in receipt of the initial number of "The Pacific Northwest," published by the Pacific Northwest Immigration Board, of Portland. The paper consists of sixteen pages of four columns each, printed on good book paper, profusely illustrated with half-tone engravings of Crater Lake and other interesting scenery, and industries of the North Pacific states, and withal, a first-class publication—a worthy representative of its section. We would like to remind them, however, that they do not comply with their agreement to credit all articles taken from exchanges.
