YES OR NO.

"Tell me," said the young man passionately, "is my answer to be spelled with three letters or two?"

"Three," said the summer girl shyly.

"Darling."

"That is to say, it is 'nit'."

It is thought improbable that man will ever set foot on the summit of Mt. Everest, the highest peak in the world, because, at its great height, the air is so rarified that to live in it is beyond human endurance. This is the conclusion reached in a recent experiment by Prof. Ugolino Mosso, of Turin.

The reason why the average woman appears as old at 30 as the average man does at 40 is because the average woman at 30 is usually about 40.—Religious Advocate.
